ESG Strategy Evolution

The evolution of our sustainability strategy was structured around three pillars: **Sustainable Finance, Diversity and Development,** and Climate Transition.

Sustainable Finance

Focus on generating increasingly sustainable business opportunities, such as green and socially responsible products and services.

Previous goal

R\$400 bn

between 2019 and 2025 for lending and financing operations for sustainable development.

In June 24, we exceeded the initial target reaching R\$420 billion disbursed.

Updated goal

R\$1 trillion

between 2020 and 2030 in lending and financing for sustainable economy¹.

2023 income statement, excluding Banco Itaú Argentina

For a better understanding of the 2024 projections, we present below the quarterly and accumulated income statement for 2023 excluding the results of Banco Itaú Argentina. Due to the fact that in August 2023, we entered into an agreement to sell all shares of Banco Itaú Argentina, Itaú Unibanco's consolidated balance sheet as of September 2023 no longer included the figures from Itaú Argentina, while the income statement for the third quarter of 2023 took into account the results for the month of July 2023 only.
