CORPORATE CORRUPTION PREVENTION POLICY (GLOBAL)

OBJECTIVE

This document establishes guidelines for preventing and fighting corruption at Itaú Unibanco.

1. TARGET AUDIENCE

This policy applies to Itaú Unibanco Holding S.A. and its subsidiaries in Brazil and abroad. The guidelines within this policy must be followed by all managers and employees in Brazil and abroad, as well as the Conglomerate's controllers and by related non-profit entities in Brazil, in interactions with customers, partners, suppliers and other stakeholders, including public entities.

2. INTRODUCTION

Itaú Unibanco is subject to several national and international rules, including, at the national level, Law 12,846/13, known as the Anti-Corruption Law, which establishes that legal entities have strict liability (regardless of intent, fault or negligence) if they are involved in any form of corruption or commit other harmful acts against the Brazilian or foreign public administration, such as bid fraud and obstruction of justice, providing for penalties for the practice of acts of corruption, such as suspension of activities or dissolution of the company. Internationally, the Foreign Corrupt Practices Act (FCPA) and the UK Bribery Act stand out, among others in the countries where we are present.

Itaú Unibanco rejects any form of direct or indirect, active or passive corruption, and always seeks to establish fair and transparent relations. In this way, Itaú structures its processes and practices based on global market corruption prevention standards, jurisprudence and information. Additionally, while Brazilian law considers it to be a crime of

corruption only deviations in the relations between public and private agents, the Conglomerate considers both deviations between public and private agents, as well as between private agents.

In that sense, the Corporate Corruption Prevention Policy ("Policy") is one of the components of the Integrity and Ethics Program, and aims to reinforce Itaú Unibanco's commitment ("Conglomerate") to preventing and fighting corruption, in any shape or form. The Policy establishes guidelines and procedures for preventing and combating corruption, such as training, communication and channels for questions and complaints, procedures that aim to avoid conflicts of interest in relations with our stakeholders in the public and private sectors.
