MANAGEMENT REPORT – 1ST HALF OF 2012

To our Stockholders

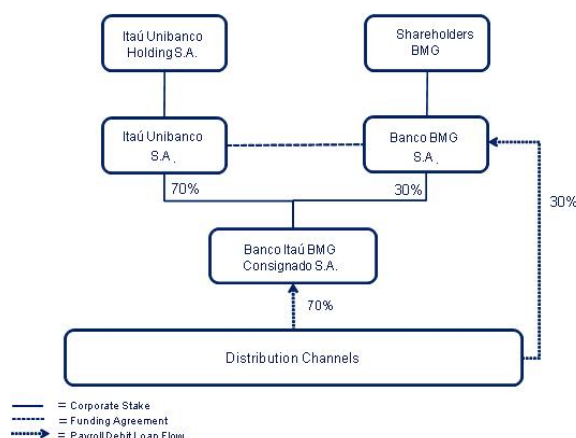

We present the Management Report and the Financial Statements of Itaú Unibanco Holding S.A. (Itaú Unibanco) and its subsidiaries for the first half of 2012, in accordance with the regulations established by the Brazilian Corporate Law, the National Monetary Council (CMN), the Central Bank of Brazil (Bacen), the Brazilian Securities and Exchange Commission (CVM), the Superintendency of Private Insurance (Susep) and the National Council of Private Insurance (CNSP).

1) Highlights

1.1) Subsequent Event

Association with Banco BMG - On July 10 we announced to the market that we entered into an Association Agreement with Banco BMG S.A. (“BMG”), with respect to the offering, distribution and commercialization of payroll debit loans throughout Brazil. This Association will be structured as a new business through a new financial institution to be named Banco Itaú BMG Consignado S.A. (“Association”), in which we will hold a controlling stake of 70% of the total voting capital and BMG will hold the remaining 30%. The Association’s capital stock shall be R\$ 1 billion, to be subscribed by the shareholders in the aforementioned proportion.

The payroll advance loans carried out through branches for our clients will continue operating independently from the Association. In the chart below we present the corporate structure and the contract flow for Payroll Debit Loans of Association, as well as the related Funding Agreement:

We will provide, from now and for the term of 5 years, part of the funds for BMG’s Payroll Debit Loans operation in the monthly amount of up to R\$ 300 million.

We also inform that we have the intention to consummate the Association within 90 days, subject to the compliance with certain precedent conditions, the execution of the final agreements and the appropriate regulatory approvals. The Association is not expected to have significant accounting effects on this year results.

1.2) Corporate Events

Redecard – Tender Public Offer (OPA) - The completion of the OPA is conditioned on (i) acceptance or (ii) express agreement with the voluntary delisting by more than 2/3 of the Company’s free float, thus understood as shares comprising the free float of the Company held by stockholders that have expressly agreed to the delisting of the Company or have qualified for the OPA auction, pursuant to article 16, II of CVM Instruction No.361/02.

The OPA launch is subject to: (i) regulatory approval, (ii) market conditions; and (iii) the terms stated in the Notice, in particular section 3.7 – “OPA Conditions”, posted on Redecard’s investor relations website on June 22, 2012 and filed with CVM.

Sale of BPI – In April 2012, as authorized by Banco de Portugal, we carried out the sale operation of our full interest in Banco BPI (18.87% in capital) to La Caixa Group, BPI’s largest stockholder. Over the twenty years of association, Itaú Unibanco has enjoyed an excellent relationship with the management of the La

Caixa Group. As a result of this operation, there was a positive impact of approximately R\$ 106 million in the consolidated stockholders' equity and a negative non-recurring impact of R\$ 205 million in net income for the first half of 2012.

Acquisition of Banco Carrefour – On May 31, after authorization by the Central Bank of Brazil, we indirectly acquired shares representing 49% of the capital of Banco CSF S.A. (“Banco Carrefour”) responsible for the offer and distribution, on an exclusive basis, of financial, insurance and pension plan products and services in the distribution channels operated under the “Carrefour” brand in Brazil. The transaction of R\$ 816 million resulted in goodwill of R\$ 583 million, to be amortized over 10 years. This interest was accounted under the equity method. The Corporate Governance process has already been structured and is ongoing with nine internal committees, held on a monthly and quarterly basis to discuss topics related to Credit and Risk, Operations and IT, Human Resources, Finance and Taxes, Ombudsman and Quality, Compliance and Audit, Marketing and Sales, Fraud Prevention and Innovation/Products. So far, the Committees have identified synergies related to Client Service, Credit and Costs.

Completion of sale of Orbitall – Announced in December 2011, we completed the sale of the Orbitall card processor to Stefanini Group in May 2012. The final outcome of this transaction will tend to be neutral, considering the established contractual conditions.

Repurchase of shares – In May 2012 we acquired 3,500,000 preferred shares of own issue in the total amount of R\$ 99.1 million at the average price of R\$ 28.30 per share. The current repurchase program establishes a repurchase limit of up to 56,700,000 preferred shares and 9,000,000 common shares.

1.3) Other Highlights

Sustainable Bank of the Year in Americas - The British newspaper Financial Times and IFC (International Finance Corporation), the financial institution of the World Bank, elected Itaú as the Sustainable Bank of the Year – Americas, in the Financial Times/International Financial Corporation (FT/IFC) Sustainable Finance Awards. This is the fourth year in a row we are granted this award, one of the most important in the world in Sustainability. In 2012, 181 institutions of 67 countries competed for this award.

Interactivity – In less than one year, Itaú Unibanco's page on Facebook reached over two million fans. We are the bank with the largest number of fans in the whole world and this is the first time a brand of the financial sector has reached this level of engagement.

Market Value in Stock Exchange – On June 30, 2012, we ranked were the 15th largest bank of the world under the market value criterion (R\$ 126.7 billion), according to the Bloomberg ranking, despite of the Real depreciation, since the ranking is calculated in US dollars.

Moody's Ratings – In June, Moody's ratings agency disseminated the revaluation of the risk ratings for Brazilian banks based on a new global methodology, and the ratings assigned to Itaú Unibanco Holding were: Foreign Currency (Long Term/Short Term) - Baa1/P-2; Local Currency (Long Term/Short Term) - Baa1/P-2; Issuer (Long Term) - Aaa.br; Issuer (Short Term) - BR-1; Senior Debt in Foreign Currency (Long Term) - Baa1; and Subordinated Debt in Foreign Currency (Long Term) - Baa2.

2) Economic Environment

Recent concerns regarding the elections in Greece and banking problems in Spain have brought new waves of pessimism to the markets. The economy in the USA and China do not offer optimism to counterbalance the European problems. After months of positive surprises, hopes of returning to the high growth in the past have faded. We reduced our forecast for China's GDP growth in 2012 from 8.0% to 7.8%. As uncertainty remains, financial conditions are worsening, recession in the Euro zone is worsening and tax adjustment becomes more problematic.

The Brazilian economy has recovered slower than expected. In view of the weak GDP data for the first quarter and the deterioration in the foreign scenario, we revised our growth projection in 2012 from 3.1% to approximately 2%. The stimuli of the economic policy implemented should lead to a reinvigoration of activity over the year, but probably less intense than expected.

The slow growth in Brazil and in the world reduces the risk of higher inflation in the next few quarters. In addition, microeconomic measures adopted by the government (tax incentives and managed prices) have pushed certain prices down. We reduced our projection for IPCA in 2012 from 5.2% to 4.9% when we absorbed the impact of the IPI (federal VAT) cut for vehicles announced at the end of May. The measure is expected to remain in force through August 31, but we believe it will be extended to at least the end of 2013.

With increased uncertainties about the foreign scenario and its possible impact on the domestic activity, the Central Bank of Brazil continued with the process to reduce the Selic rate in the first half of 2012. At the end of the first half, the annual basic interest rate was 8.5%, as compared to 11.0% at the end of 2011, before the reduction cycle. In addition to the relaxation of monetary policy, the government has used other instruments to boost economy, such as tax reduction for certain industries and credit incentive measures to stimulate credit.

Exchange rates depreciated over the first half of 2012 and is close to R\$ 2.05. The increased aversion to risk and the decrease in prices of commodities contributed to this depreciation. The Central Bank of Brazil has also intervened in the foreign exchange market. After months purchasing dollars in the futures and spot markets, the monetary authority started selling foreign exchange swaps, aiming at limiting the devaluation of the real. From May to the end of June, the Central Bank of Brazil sold US\$ 16.9 billion of the aforementioned derivative. International reserves reached US\$ 374 billion at the end of the first half of 2012, above the US\$352 billion recorded in December 2011.

4) Performance

4.1) Income

Net income for the first half of 2012 amounted to R\$ 6.7 billion, with annualized return of 18.6% on average equity (22.4% in the same period of the previous year). Recurring net income was R\$ 7.1 billion, with annualized return of 19.7%. The increase of 5.7% in income from financial operations and 10.3% in income from services and bank charges as compared to the first half of 2011, added to the control over personnel and administrative expenses, contributed to net income.

The efficiency ratio reached 44.8% in the first half of 2012, as compared to 47.6% achieved in the same period of 2011. The reduction of 2.8 percentage points is the result of the efforts of our Efficiency Project started in 2010, aiming at reaching a 41% target at the end of 2013. In this context, expenses not related to interest posted an increase of 5.8% in the first half of 2012 in relation to the first half of 2011.

4.2) Assets

Total consolidated assets reached R\$ 888.8 billion and consolidated stockholders' equity totaled R\$ 75.6 billion at June 30, 2012, with growth of 12.0% and 14.5% in the last 12 months, respectively, and 4.4% and 6.0% in the half.

The diversification of our business is reflected in the composition of our funding and loan portfolio, reducing risks to specific segments, which may be more impacted by the volatility in economy, as follows:

Loan Portfolio and Default

At June 30, 2012, the balance of loan portfolio, including endorsements and sureties, reached R\$ 413.4 billion, an increase of 4.1% and 14.8% as compared to December 31 and June 30, 2011, respectively.

Individuals Segment – In Brazil, our loan portfolio to individuals reached R\$ 147.3 billion at June 30, 2012, 0.2% lower than that posted at December 31, 2011. Highlights:

- Mortgage loan reached R\$ 15.7 billion, a growth of 17.0% as compared to the end of December 2011. The offer of mortgage loan is promoted by the network of branches, development companies and real estate agencies, as well as partnerships with Lopes (LPS Brasil – Consultoria de Imóveis S.A.) and Coelho da Fonseca Empreendimentos Ltda., among other.
- Personal loans and payroll loans posted growth of 9.1%, and 10.8% respectively, when compared to December 31, 2011.
- We are leaders in the vehicle financing segment and credit card, with balances of R\$ 56.6 billion and R\$ 36.8 billion, respectively, at June 30, 2012.

Our loan portfolio for Mercosur operations (Argentina, Chile, Uruguay, and Paraguay) posted a growth of 21.4% as compared to December 31, 2011, reaching a balance of R\$ 7.8 billion.

Corporate Segment – In Brazil, our portfolio of credit to companies reached R\$ 241.1 billion at June 30, 2012, posting a growth of 5.4% in relation to December 31, 2011, as follows:

- The loan portfolio and joint obligations of Itaú BBA reached the amount of R\$ 149.5 billion, a 8.0% increase as compared to December 2011.
- The very small, small and middle market company segment, which serves companies with annual revenue of up to 150 million, posted a balance for its loan portfolio, including endorsements and sureties, of R\$ 91.7 billion at June 30, 2012, a 1.4% increase as compared to December 31, 2011.

In Chile, Argentina, Uruguay and Paraguay, loan operations to companies amounted to R\$ 17.1 billion at June 30, 2012, a 20.1% growth when compared to December 31, 2011.

Default - Total default rate, considering the balance of transactions overdue for over 90 days reached 5.2% at June 30, 2012, posting an increase of 0.3 percentage point as compared to December 2011. The default rate of the portfolio of credit to individuals reached 7.3% and 3.5% for portfolio of credit to companies at the end of June 2012. However, if we analyze the default rate for 15 to 90 days, there was a decrease between

March and June 2012: in Individuals from 7.9% to 7.5%, in Companies from 2.3% to 2.2% and, in total, from 4.8% to 4.5%.

4.3) Funding

Free, raised and managed assets totaled R\$ 1.2 trillion at June 30, 2012, an 11.8 % growth as compared to June 30, 2011. Of this total, 42.3% refer to investment funds, managed portfolios and technical provisions for insurance, pension plan and capitalization, 31.8% to deposits, debentures, and funds from bills, and 25.9% to own assets and other funding.

The increase in funding (net of Compulsory deposits and Cash equivalents) enabled the improved Loan portfolio and funding ratio, reaching 98.0% at June 30, 2012.

At June 30, 2012, the balance of managed assets was R\$ 422.6 billion, an 11.4% increase as compared to the same period of the previous year.

Real Estate Credit Bills (LCI) – Funding operations through issues of LCIs increased 49.5% in the first half of 2012 as compared to the same period of the previous year.

4.4) Capital Strength

Basel ratio was 16.6% at the end of June 2012, showing the strength of our capital basis. In July 2012, we carried out a funding operation with the record amount of US\$ 340 million with the International Finance Corporation (IFC) together with other seven international banks. The funds will be used to finance small and medium-market companies in the Northern and Northeastern regions of Brazil. The term of this funding is from 2 to 5 years, in different tranches; this is an unprecedented operation and the most relevant one in terms of volume raised by a Latin American institution with a multilateral body.

5) Business

Commercial Bank - At the end of June 2012, we had 5,006 bank points of service, including regular branches and service centers (Postos de Atendimento Bancário - PAB) distributed in Brazil and abroad, a growth of 113 branches in the one-year period.

Our loan portfolio, including endorsement and surety operations, reached the balance of R\$ 413.4 billion at June 30, 2012, with an addition of 14.8% as compared to the same period of the previous year. In the individuals segment, noteworthy in the semester was the growth in mortgage and personal loan portfolios, whereas in the company segment the highlight was the growth in the corporate portfolio. Our balance of endorsements and sureties totaled R\$ 56.6 billion at June 30, 2012.

We kept the focus of Itaú Personnalité on gaining market share in investments and pension plan for the high income segment, and on continuing to expand the exclusive branch network, as we opened 11 new points in the first half of 2012, which, added to the 27 points opened in 2011, represent a 20% increase in the last 18 months.

We consolidated the expansion of Itaú Uniclass service to 100% of retail network, and now we are serving clients with dedicated managers, exclusive tellers in major branches, higher credit limits, investments advisory and management services over the phone.

We boosted our investments in client service. Currently, there is R\$ 450 million in projects that change the whole interface, add functionalities and improve the client's experience of use in the relationship with Itaú. New products and services were made available to clients, such as Itautrade in 30 Horas, in which the client may trade shares in the Internet Banking; sending token codes via sms and the application for generation of token code in smartphones, making the use of remote channels easier; offering current account monthly statements by e-mail, reducing the printing volume and forwarding by mail; having a new platform for client service center, improving the quality of services and reducing the need for multiple phone calls to the bank; implementing voice recognition software in service centers, in which the client speaks the option chosen, in addition to investments in mobility, in which the bank make solutions available to individuals and companies.

In the Private Bank segment, we are the largest bank in Latin America and remain the leader in the Brazilian market, with over 25% of market share, according to the Brazilian Financial and Capital Markets Association (ANBIMA), by providing services to over 5,300 economic groups.

In the Assets under Administration segment, in which Privatization Funds, Fixed Income, Equities Funds, Investment Clubs and Clients' and the Group's Portfolios are managed in Brazil and abroad, we reached R\$ 422.6 billion in managed assets, with 19.7% market share and we rank 2nd in the global administration ranking, according to ANBIMA (Brazilian Financial and Capital Markets Association).

We are leaders in the provision of custody services and bookkeeping of shares. We have a total of R\$ 879.6 billion in assets under custody, which represents 25.3% market share, according to ANBIMA, and we provide bookkeeping of shares services to 63.2% of total companies listed in the BM&FBovespa.

Kinea - Kinea is among the largest real estate fund managers in Brazil, with total managed assets of R\$ 2.6 billion in June 2012.

Insurance, Life, Pension Plan and Capitalization –The operations in these businesses in terms of volume of revenue for premiums, social security contributions and capitalization certificates reached R\$ 11.8 billion in the first half of 2012 and the technical provisions totaled R\$ 82.5 billion at the end of June 2012, including foreign operations. Our market share, including 30% of capital of the Porto Seguro Group, reached 13.4% in accumulated from January to May 2012, in accordance with information made available by Susep (which regulates all insurance lines, except for health insurance, which is regulated by ANS (Supplementary Healthcare Agency)).

In this half, total funding of private pension plans reached R\$ 8,720 million, an increase of 45.8% as compared to the same period of the previous year, mainly influenced by the 54.5% increase in funding from VGBL product. Net funding, which represents total funding less redemptions and external portability, posted a 82.3% increase as compared to the first half of 2011.

Porto Seguro - Noteworthy is that Itaú Unibanco holds 30% of capital of the insurance company Porto Seguro, the leading company in residence and automobile insurance segment in Brazil. We have an operating agreement with the insurance company Porto Seguro to offer and distribute, on an exclusive basis, residence and automobile insurance products to clients in our network in Brazil and Uruguay. From January to May 2012, Porto Seguro held 26.0% and 28.2% market share in retained premiums in automobile and residence insurance, respectively (source: Susep – Superintendency of Private Insurance).

Consumer Credit – We are leaders in the consumer credit segment in Brazil, by means of Itaucard, Hipercard, and partnerships, offering a diversified range of products to accountholders and non-acountholder clients, originated in proprietary channels and through partnerships with companies that have outstanding performance in the markets they are engaged. In the first half of 2012, the transacted amount reached R\$ 81.7 billion, a 14.3% increase in relation to the same period of 2011.

Redecard, company controlled by Itaú Unibanco holds interest, recorded net income of R\$ 769.3 million in the first half of 2012, with a 27.4% increase as compared to the same period of 2011.

Itaú BBA – In the investment banking area, we highlight as follows:

- *Fixed income* - in the period from January to May 2012, we took part in operations of debentures, promissory notes and securitization, that totaled R\$ 9.5 billion: In the ANBIMA ranking of distribution of fixed income from January to May 2012, we reached the 1st place in volume, with 29.6% market share. In international issues of fixed income, we acted as the joint bookrunner of offerings, with a total volume of US\$ 15.8 billion, reaching the 1st place in the ranking of issues by Brazilian companies in June 2012, of BondRadar. We also achieved the 3rd position in the ranking of issues of Fixed Income in Latin America, with 8.6% market share, according to the ranking from January to June 2012 disseminated by Dealogic.
- *Mergers and Acquisitions* – we provide financial advisory on 32 transactions in the first half of 2012 and achieved the leadership of the Thomson Reuters ranking in volume of operations, accumulating the amount of US\$ 14.5 billion.
- *Capital markets* – we reached the 2nd position in the Origination ranking of ANBIMA of May 2012, with volume of operations of R\$ 1.2 billion.
- *Itaú Corretora* – In the first half of 2012, we were ranked fifth among the brokerage companies, with a 5.3% market volume. In Futures Market, we ended the half with 8.7% market share, with 63 million of traded contracts, ranked 5th among the brokerage companies.

We highlight the following operations in the Wholesale banking activity of Itaú BBA:

- *Derivatives* – Itaú BBA maintained its leadership in CETIP (Clearing House for the Custody and Financial Settlement of Securities) in over-the-counter derivative operations with companies. The focus was on operations hedging the exposures to foreign currencies, interest rates and commodities with clients. The volume of contracted operations in the first half of 2012 was 43.4% higher than in the same period of prior year.
- *Project Finance* – we closed the first half of 2012 with 52 projects in which the bank was contracted to work on the structuring and/or advisory in the same period. Total investments involved in the projects analyzed for a number of sectors, such as oil and gas, energy, industrial, mining, logistics and sanitation, exceeded R\$ 60 billion.

Activities Abroad – In addition to Brazil, we acted in regions such as: Latin America, Europe, North America, Middle East and Asia. In the half, these businesses posted recurring net income of R\$ 1,077.2 million, with total assets of R\$ 181.2 billion at June 30, 2012.

6) People

We had the support of 99.0 thousand employees at the end of June, of which 6.5 thousand were abroad. The employee's fixed compensation plus charges and benefits totaled R\$ 4.5 billion for the half year. Welfare benefits granted to employees and their dependants totaled R\$ 679.1 million. In addition, approximately R\$ 123.4 million were invested in education, training and development programs.

To keep the commitment of assuring excellence to meet the business requirements in the first half of 2012, we continued with the talent hiring programs, such as for trainees and internship. In line with the inclusion commitment, we closed the first half with over 4.1 thousand employees in the Program for Inclusion of People with Disabilities and over 1.7 thousand apprentices.

In a pioneer event, we received university students in our facilities to talk about business, career and relevant topics for the attendees. Our Chief Executive Officer and Chairman of the Board were in attendance at the Opening Ceremony and the Vice-Presidents, Executive Directors and Superintendents conducted the Experience Talks, Workshops, Panels and Lectures.

7) Sustainability and Corporate Governance

Strengthening our commitment to the transparency and communication with the market in the first half of 2012, we took part in 15 conferences and road shows in Brazil and abroad, which contributed to strengthen our relationship with stockholders, analysts and investors in the Brazilian and international markets.

We held 13 of the 22 meetings scheduled for the 2012 Apimec Cycle for all regions of Brazil. With an innovative language, the presentation of these meetings involves economic aspects of the country and the main information of our institution, such as financial performance, business areas and outlook for the sector.

In May 2012, the new guides on the responsible use of money arrived in our branches: "Consumir e Poupar" (to consume and save), "Use bem o seu dinheiro" (use your money responsibly) and "Saia do vermelho" (get out of the red). The guides address the topic of financial education in a simple and informal language and its purpose is to support people to have a healthier relationship with money. In addition to the guides, in 2012 we launched the children's book "A Árvore dos Sonhos" (the dream tree), a recreational instrument used by parents and educators to introduce the topic to children. The purpose is to awake the curiosity of children about the choices involving money and fulfillment of dreams.

8) Social and cultural investments

Social and cultural investments are aimed at anticipating changes, improving learning experiences and focusing on projects and initiatives that lead to transformation in society.

Aware of our responsibility, only in the first half of 2012 we invested R\$ 84.3 million in education, culture and sports actions. Among them, noteworthy are those related to education and culture, with R\$ 43.8 million, in addition to the celebration of 25 years of Itaú Cultural.

More details about the main initiatives in the first half:

- *The “Jovem do Futuro” (Youth with a Future) Program of Instituto Unibanco:* In May, the Institute signed with the Government of the State of Ceará, the Ministry of Education (MEC), the technical cooperation instrument to implement in that State the “Jovem do Futuro” program, developed and validated by Instituto Unibanco, which is an integral part of “Ensino Médio Inovador” (innovative high school) program, of the Federal government. The purpose is to qualify the High School management and to help Ceará to come closer to the Basic Education Development Interest (IDEB) 6, which is the federal government’s goal for 2022. The 100 schools in Ceará included in the Project will receive funds, technical support and close supervision, in addition to qualification to transform investments in school achievements, such as improvement in school performance and increase in the pass rate.
- *Itaú Cultural:* By the end of June 2012, over 120 thousand people visited Itaú Cultural. The Institute’s website had over 5.9 million hits. In the same period, partnerships with TVs and radio stations led to the execution of 190 and 2,007 agreements for the broadcasting of programs, respectively. The first annual exhibition, “Convite à Viagem” (invitation to travel) was visited by over 58 thousand people. By the end of June 2012, 130 national and international events were held and 8 new products were launched, including catalogs, magazines and books, of which 7.6 thousand were distributed to institutions and researchers in Brazil and abroad. By June, the Auditório Ibirapuera was visited by over 80 thousand people, where 83 shows were held.
- *Investments of Itaú Cultural* from January to May 2012 over R\$ 28.9 million were invested in projects and cultural initiatives, of which R\$ 10.9 million (38%) under article 26 of the Rouanet Law.

9) Awards and Recognition

- *World’s Best Sub-Custodian Banks 2012* – We were chosen by Global Finance magazine, one of the global most respected publications in Economy and Finance, as the Best Bank in the provision of custody services in Brazil and Uruguay.
- *Customer Excellence Awards* – We were granted the “Nice Customer Excellence” award as a benchmark in Call Center. With this achievement, we are three-time champions in Planning – we also won in 2009 and 2011 – and are first-time winners in Quality.
- *World’s Best Banks 2012* – We were chosen as the Best Bank in Brazil and Paraguay, according to the Global Finance magazine. The winners are chosen in a survey with analysts, executives and consultants of financial institutions.
- *The Best Companies to Start a Career* – We were chosen as one of the best companies to start a career. Sponsored by Você S/A Guide, the award assesses the work environment and the practices and policies for people management focused on the young audience.
- *Highlight AE Projeções* – Itaú Asset Management was one of the awarded institutions in Top Basic and Itaú Unibanco won Top General and Top Basic. The award, granted to the first ten positions in the AE Projeções Ranking, identifies the institutions which projections for the key economic indicators in Brazil are the closest to reality.
- *Safest Emerging Market Banks in Latin America* – We were the best ranked Brazilian bank. The acknowledgment is the result of a survey conducted by Global Finance magazine, in which the 10 Safest Banks of Emerging Markets in Latin America are classified.
- *Top Management of Valor Econômico* - Itaú Asset Management was granted the award because it was the best asset manager in capital markets of the year. Developed based on the Standard & Poor’s analysis, the award selects the best managers of the Brazilian investment funds industry.
- *World Business and Development Awards (International Chamber of Commerce)* – We won in the special “Brazil” category. This award acknowledges private sector’s contributions to the millennium goals (targets defined by the UN to reduce poverty, promote gender equality, health, and fight against child mortality, AIDS and other diseases).
- *Efinance* – We were awarded in five categories: Internet Banking, E-commerce, Social Network, Corporate Mobile and Safety. Itaú BBA was the winner in three categories: Workflow, Risk Analysis Tools and Product Redesign. Sponsored by the Executivos Financeiros magazine, the Efinance award acknowledges the most innovative solutions, implementations and applications in the IT and Telecom areas of financial institutions.

- *Ethical Corporation Awards* – We were granted the award in the Sustainability Commercialized category. Sponsored by Ethical Corporation since 2010, the award acknowledges corporate responsibility practices.
- *Insurer 2012* - Itaú Seguros was awarded in the categories “Best Global Development in Private Pension” and “Best Performance” in lines “Warranties”, “Life Group”, “Extended Warranty” and “Agricultural Risks” and won in the category “Sales Market Leader”, in lines “Liabilities”, “General Risks”, “Accident” and “Extended Warranty”. The Brazil Insurer Award acknowledges the best performances of large and middle-sized groups, insurance companies, private pension, capitalization and local reinsurers, in addition to sales market leaders in all segments.
- *Best Brazilian Trade Bank in Trade Finance* – granted in Awards of Excellence 2012 by Trade Finance magazine.
- *Best Investment Bank in Brazil* – granted by Euromoney Awards for Excellence 2012.

10) Independent Auditors – CVM Instruction No. 381

Procedures adopted by the Company

The policy adopted by Itaú Unibanco Holding S.A., its subsidiaries and parent company, to engage non-audit related services from our independent auditors is based on the applicable regulations and internationally accepted principles that preserve the auditor’s independence. These principles include the following: (a) an auditor cannot audit his or her own work, (b) an auditor cannot function in the role of management in companies where he or she provides external audit services; and (c) an auditor cannot promote the interests of its client.

During the period from January to June 2012, the independent auditors and related parties did not provide non-audit related services in excess of 5% of total external audit fees.

According to CVM Instruction No. 381, we list below the engaged services and related dates:

- January 24, 2012 – vulnerability analysis and application intrusion tests on the internet perimeter.
- February 17, 2012 – review of aspects related to the business continuity program.
- February 23 and March 29, 2012 – acquisition of technical material;
- February 28, 2012 – consulting services for obtaining GIPS (Global Investment Performance Standards) certification;
- March 6 and June 12, 2012 – attendance at courses open to the public, related to finance and accounting.
- April 27, 2012 – consulting services in the authorization request to the regulatory body for opening a subsidiary.

Summary of the Independent Auditors' justification - PricewaterhouseCoopers

The provision of the above described non-audit related professional services do not affect the independence or the objectivity of the external audit of Itaú Unibanco, parent and its subsidiary/affiliated companies. The policy adopted for providing non-audit related services to Itaú Unibanco is based on principles that preserve the independence of Independent Auditors, all of which were considered in the provision of the referred services.

11) Circular No. 3,068/01 – BACEN

Itaú Unibanco hereby represents to have the financial capacity and the intention to hold to maturity securities classified under the line "held-to-maturity securities" in the balance sheet, in the amount of R\$ 3.1 billion, corresponding to only 1.5% of total securities held.

Acknowledgements

We thank our employees for their determination and skills which have been essential to reaching consistent results, and our stockholders and clients for their trust.

(Approved at the Board of Directors' Meeting of July 23, 2012).

ITAÚ UNIBANCO HOLDING S.A.
NOTES TO THE FINANCIAL STATEMENTS
FROM JANUARY 1 TO JUNE 30, 2012 AND 2011

(In thousands of Reais)

NOTE 1 - OPERATIONS

Itaú Unibanco Holding S.A. (ITAÚ UNIBANCO HOLDING) is a publicly-held company which, together with its subsidiaries and affiliated companies, operates in Brazil and abroad, with all types of banking activities, through its commercial, investment, real estate loan, finance and investment credit, and lease portfolios, including foreign exchange operations, and other complementary activities, with emphasis on Insurance, Private Pension Plans, Capitalization, Securities Brokerage and Administration of Credit Cards, Consortia, Investment Funds and Managed Portfolios.

NOTE 2 – PRESENTATION OF THE FINANCIAL STATEMENTS

a) Presentation of the Financial Statements

The financial statements of ITAÚ UNIBANCO HOLDING and of its subsidiaries (ITAÚ UNIBANCO HOLDING CONSOLIDATED) have been prepared in accordance with accounting principles established by the Brazilian Corporate Law, including the amendments introduced by Laws No. 11,638, of December 28, 2007, and No. 11,941, of May 27, 2009, in conformity, when applicable, with instructions issued by the Central Bank of Brazil (BACEN), the National Monetary Council (CMN), the Brazilian Securities and Exchange Commission (CVM), the Superintendence of Private Insurance (SUSEP), and the National Council of Private Insurance (CNSP), which include the use of estimates necessary to calculate accounting provisions.

On April 23, 2012 the Central Bank of Brazil approved the Agreement for Purchase and Sale of Shares entered into on April 14, 2011 by ITAÚ UNIBANCO HOLDING and Carrefour Comércio e Indústria Ltda (Carrefour Brasil) in order to acquire 49% of BSF Holding S.A. (Banco Carrefour”), for the amount of R\$ 816,255 million, giving rise to a goodwill of R\$ 583,081, with the transfer of shares on May 31, 2012.

In order to enable the proper analysis of the net income, the heading “Net income without nonrecurring effects” is presented below the Consolidated Statement of Income, and this effect is highlighted in a heading called “Exclusion of nonrecurring effects” (Note 22k).

As set forth in the sole paragraph of article 7 of BACEN Circular No. 3,068, of November 8, 2001, securities classified as trading securities (Note 4c) are presented in the Balance Sheet under Current Assets regardless of their maturity dates.

Lease Operations are presented, at present value, in the Balance Sheet, and the related income and expenses, which represent the financial result of these operations, are presented, grouped together, under loan, lease and other credit operations in the Statement of Income. Advances on exchange contracts are reclassified from Other Liabilities – Foreign Exchange Portfolio to credit operations. The foreign exchange result is presented on an adjusted basis, with the reclassification of expenses and income, in order to represent exclusively the impact of variations and differences of rates on the balance sheet accounts denominated in foreign currencies.

b) Consolidation

As set forth in paragraph 1, article 2, of BACEN Circular Letter No. 2,804, of February 11, 1998, the financial statements of ITAÚ UNIBANCO HOLDING comprise the consolidation of its foreign branches and subsidiaries.

Intercompany transactions and balances and results have been eliminated on consolidation. The investments held by consolidated companies in Exclusive Investment Funds are consolidated. The investments in these fund portfolios are classified by type of transaction and were distributed by type of security, in the same categories in which these securities had been originally allocated. The effects of the Foreign exchange variation on investments abroad are classified in the heading Securities and Derivative Financial Instruments in the Statement of Income.

The difference of Net Income and Stockholders’ Equity between ITAÚ UNIBANCO HOLDING and ITAÚ UNIBANCO HOLDING CONSOLIDATED (Note 16d) results from the adoption of different criteria for the amortization of goodwill originated on purchase of investments, net of the respective deferred tax assets.

In ITAÚ UNIBANCO HOLDING, the goodwill recorded in subsidiaries, mainly originated from the ITAÚ UNIBANCO merger, is being amortized based on the expected future profitability and appraisal reports or upon realization of the investment, according to the rules and guidance of CMN and BACEN.

In ITAÚ UNIBANCO HOLDING CONSOLIDATED, from January 1, 2010, the goodwill originated from the purchase of investments is no longer fully amortized in the consolidated financial statements (Note 4j). By 12/31/2009, goodwill generated had been fully amortized in the periods investments were made.

The consolidated financial statements comprise ITAÚ UNIBANCO HOLDING and its direct and indirect subsidiaries, among which we highlight:

NOTE 3 – REQUIREMENTS OF CAPITAL AND FIXED ASSET LIMITS

a) Basel and Fixed Asset Ratios

The main indicators at June 30, 2012, according to present regulation, are as follows:

	Financial conglomerate (1)	Economic-financial consolidated (2)
Referential equity (3)	101,953,520	102,518,730
Basel ratio	16.6%	16.9%
Tier I	12.1%	12.4%
Tier II	4.5%	4.5%
Fixed assets ratio (4)	40.2%	14.3%
Excess capital in relation to fixed assets	9,997,362	36,610,183

(1) Consolidated financial statements including financial companies only;

(2) Consolidated financial statements comprising all direct and indirect subsidiary companies, including insurance, pension plan, capitalization companies and other non-financial companies, as provided for in CMN Resolution No. 2,723 of June 1, 2000, amended by CMN Resolution No. 2,743, of June 28, 2000;

(3) The CMN, through Resolution No. 3,444, of February 28, 2007, determined the Referential Equity (PR), for purposes of calculating operating limits, as being the sum of both Tier I and Tier II levels, following the international experience, each of them comprising items from stockholders' equity, as well as subordinated debt and hybrid capital and debt instruments;

(4) The difference between the fixed asset ratio of the financial conglomerate and the economic-financial consolidated arises from the inclusion of non-financial subsidiary companies, which provide high liquidity and low level of fixed asset ratio, with a consequent decrease in the fixed asset ratio of the economic-financial consolidated amounts, enabling, when necessary, the distribution of funds to the financial companies.

Issues of subordinated debt, in the amount of R\$ 1,777,300 as of June 30, 2012, are pending approval in order to be included in the Tier II. Should we consider these issues, the Basel ratios would be affected by 0.3%.

Management considers the current Basel ratio (16.6%, based on Financial conglomerate) to be adequate, taking into account the following:

- It exceeds by 5.6 percent the minimum required by the authorities (11.0%); and
- In view of the realizable values of assets (Note 18), the additional provision (exceeding the minimum required) (Note 8c) and unrecorded deferred tax assets (Note 14b IV), the ratio would increase to 17.6%.

CMN Resolution No. 3,490, of August 29, 2007, provides for the criteria for computation of the Required Referential Equity (PRE). For calculation of the risk portions, the procedures of Circular No. 3,360, of September 12, 2007 for credit risk, of Circulars Nos. 3,361, 3,362, 3,363, 3,364, 3,366 and 3,368, of September 12, 2007, 3,388, of June 4, 2008, and 3,389, of June 25, 2008, 3,498, of June 28, 2010 and 3,568, of December 21, 2011, and Circular Letters Nos. 3,309 and 3,310, of April 15, 2008 for market risk, and Circulars Nos. 3,383, of April 30, 2008 and 3,476, of December 28, 2009 and Circular Letters Nos. 3,315 and 3,316, of April 30, 2008, for operational risk were followed. For the operational risk portion, ITAÚ UNIBANCO HOLDING opted for the use of the Alternative Standardized Approach.

Circular No. 3,568, of December 21, 2011, changes the provisions of Circulars Nos. 3,361, of September 12, 2007, 3,388, of June 4, 2008, 3,389, of June 25, 2008, 3,478 of December 24, 2009 and 3,498, of June 28, 2010, which set forth the procedures for calculation of the portion related to market risk. The new calculation method will be adopted gradually from January 1, 2012, taking into account that it shall be fully employed from December 31, 2012. Should the new rules already be applicable, the ratios would be reduced by about 0.3%.

The Referential Equity used for calculation of ratios and composition of risk exposures at June 30, 2012, are as follows:

b) Capital for Insurance Activity

CNSP – Conselho Nacional de Seguros Privados (National Council of Private Insurance), following the worldwide trend towards the strengthening of the insurance market, published Resolution No. 227 of December 6, 2010 (which revoked Resolutions No. 178 of December 28, 2007, and No. 200 of December 16, 2008), and Circular No. 411 of December 22, 2010. The regulations provide for the rules on regulatory capital required for authorization and operation of insurance and pension plan companies and rules for the allocation of capital from subscription risk for several insurance lines. In January 2011, CNSP Resolution No. 228 of December 6, 2010 came into effect, providing for the criteria for establishment of additional capital based on the credit risk of the supervised companies.

The individual adjusted stockholders' equity of ITAÚ UNIBANCO HOLDING companies exclusively engaged in insurance and pension plan activities is higher than the required regulatory capital. The insurance companies of ITAÚ UNIBANCO HOLDING have capital exceeding the minimum regulatory by R\$ 1,464,541 (R\$ 1,917,737 at June 30, 2011) in Itaú Seguros S.A. and R\$ 659,663 (R\$ 1,285,059 at June 30, 2011) in Itaú Vida e Previdência S.A.

NOTE 4 – SUMMARY OF THE MAIN ACCOUNTING PRACTICES

- a) **Cash and cash equivalents** - For purposes of Consolidated Statement of Cash Flows, this item includes cash and current accounts in banks (considered in the heading cash and cash equivalents), interbank deposits and securities purchased under agreements to resell – funded position that have original maturities of up to 90 days or less.
- b) **Interbank investments, remunerated restricted credits – Brazilian Central Bank, remunerated deposits, deposits received under securities repurchase agreements, funds from acceptance and issuance of securities, borrowings and onlending, subordinated debt and other receivables and payables** – Transactions subject to monetary correction and foreign exchange variation and operations with fixed charges are recorded at present value, net of the transaction costs incurred, calculated “pro rata die” based on the effective rate of transactions, according to CVM Resolution No. 649 of December 16, 2010.
- c) **Securities** - Recorded at cost of acquisition restated by the index and/or effective interest rate and presented in the Balance Sheet, according to BACEN Circular No. 3,068, of November 8, 2001. Securities are classified into the following categories:

- Trading securities – acquired to be actively and frequently traded, and adjusted to market value, with a contra-entry to the results for the period;
- Available-for-sale securities – securities that can be negotiated but are not acquired to be actively and frequently traded. They are adjusted to their market value with a contra-entry to an account disclosed in stockholders’ equity;
- Held-to-maturity securities – securities, except for non-redeemable shares, for which the bank has the financial condition and intends or is required to hold them in the portfolio up to their maturity, are recorded at cost of acquisition, or market value, whenever these are transferred from another category. The securities are adjusted using the accrual method through their maturity date, not being adjusted to market value.

Gains and losses on available-for-sale securities, when realized, are recognized at the trading date in the statement of income, with a contra-entry to a specific stockholders’ equity account.

Decreases in the market value of available-for-sale and held-to-maturity securities below their related costs, resulting from non-temporary reasons, are recorded in results as realized losses.

- d) **Derivative financial instruments** - these are classified on the date of their acquisition, according to management's intention of using them either as a hedge or not, according to BACEN Circular No. 3,082, of January 30, 2002. Transactions involving financial instruments, carried out upon the client's request, for their own account, or which do not comply with the hedging criteria (mainly derivatives used to manage the overall risk exposure), are stated at market value, including realized and unrealized gains and losses, which are recorded directly in the statement of income.

The derivatives used for protection against risk exposure or to modify the characteristics of financial assets and liabilities, which have changes in market value highly associated with those of the items being protected at the beginning and throughout the duration of the contract, and which are found effective to reduce the risk related to the exposure being protected, are classified as a *hedge*, in accordance with their nature:

- *Market Risk Hedge* – financial assets and liabilities, as well as their related financial instruments, are accounted for at their market value plus realized and unrealized gains and losses, which are recorded directly in the statement of income.

- *Cash Flow Hedge* - the effective amount of the hedge of financial assets and liabilities, as well as their related financial instruments, are accounted for at their market value plus realized and unrealized gains and losses, net of tax effects, when applicable, and recorded in a specific account in stockholders' equity. The ineffective portion of the *hedge* is recorded directly in the statement of income.
- e) **Loan, Lease and Other Credit Operations (Operations with Credit Granting Characteristics)** – These transactions are recorded at present value and calculated “pro rata die” based on the variation of the contracted index and interest rate, and are recorded on the *accrual* basis until the 60th day overdue in financial companies, according to the estimate of receipt. After the 60th day, income is recognized upon the effective receipt of installments. Credit card operations include receivables arising from the purchases made by cardholders. The funds related to these amounts are recorded in Other Liabilities – Credit Card Operations, which also include funds arising from other credits related to transactions with credit card issuers.
- f) **Allowance for loan losses** - the balance of the allowance for loan losses was recorded based on a credit risk analysis, at an amount considered sufficient to cover loan losses according to the rules determined by CMN Resolution No. 2,682 of December 21, 1999, among which are:
- Provisions are recorded from the date loans are granted, based on the client's risk rating and on the periodic quality evaluation of clients and industries, and not only in the event of default;
 - Based exclusively on delinquency, write-offs of credit operations against loss may be carried out 360 days after the due date of the credit or 540 days for operations that mature after a period of 36 months.
- g) **Other assets** - these assets are mainly comprised of assets held for sale relating to real estate available for sale, own real estate not in use and real estate received as payment in kind, which are adjusted to market value through the set-up of a provision, according to current regulations, reinsurance unearned premiums (Note 4m I); and prepaid expenses, corresponding to disbursements, the benefit of which will occur in future periods.
- h) **Investments** – investments in subsidiary and affiliated companies are accounted for under the equity method. The consolidated financial statements of foreign branches and subsidiaries are adapted to comply with Brazilian accounting practices and converted into Reais. Other investments are recorded at cost and adjusted to market value by setting up a provision in accordance with current standards.
- i) **Fixed assets** - These assets are stated at cost of acquisition or construction, less accumulated depreciation, adjusted to market value until December 31, 2007, when applicable. For insurance, pension plan and capitalization operations, property and equipment are adjusted to market value supported by appraisal reports. They correspond to rights related to tangible assets intended for maintenance of the company's operations or exercised for such purpose, including assets arising from transactions that transfer to the company their benefits, risks and controls. The items acquired through Lease contracts are recorded according to CVM Resolution No. 554, of November 12, 2008, as contra-entry to Lease obligations. Depreciation is calculated using the straight-line method, based on monetarily restated cost.
- j) **Goodwill** – corresponds to the amount paid in excess for the purchase of investments and is amortized based on expected future profitability or as realized. It is annually tested for impairment.

- k) Intangible assets** – correspond to rights acquired whose subjects are intangible assets intended for maintenance of the company or which are exercised for such purpose, according to the CMN Resolution No. 3,642, of November 26, 2008. They are composed of rights acquired to credit payrolls and partnership agreements, amortized over the agreement terms, and software and customer portfolios, amortized over a term varying from five to ten years.
- l) Impairment of assets** – a loss is recognized when there is clear evidence that assets are stated at a non-recoverable value. This procedure is adopted semiannually.
- m) Insurance, pension plan and capitalization operations** - Insurance premiums, acceptance coinsurance and selling expenses are accounted for in accordance with the insurance effectiveness term, through the recognition and reversal of the provision for unearned premiums and deferred selling expenses. Interest arising from fractioning of insurance premiums is accounted for as incurred. Revenues from social security contributions, gross revenue from capitalization certificates and respective technical provisions are recognized upon receipt.

I - Credits from operations and other assets related to insurance and reinsurance operations:

- Insurance premiums receivable - Refer to installments of insurance premiums receivable, current and past due, in accordance with insurance policies issued;
- Reinsurance recoverable amounts – Refer to claims paid to the insured party pending recovery from Reinsurer, installments of unsettled claims and incurred but not reported claims - Reinsurance (IBNR), classified in assets in accordance with the criteria established by CNSP Resolution No. 162, of December 26, 2006, as amended by CNSP Resolution No. 195, of December 16, 2008, and SUSEP Circular No. 379, of December 19, 2008;
- Reinsurance unearned premiums – Recognized to determine the portion of reinsurance unearned premiums, calculated “pro rata die”, and for risks of policies not issued computed based on estimates, based on the actuarial technical study and in compliance with the criteria established by CNSP Resolution No. 162, of December 26, 2006, as amended by CNSP Resolution No. 195, of December 16, 2008, and SUSEP Circular No. 379, of December 19, 2008.

II - Technical provisions of insurance, pension plan and capitalization – technical provisions are recognized according to the technical notes approved by SUSEP and criteria established by CNSP Resolution No. 162 of December 26, 2006 and the subsequent amendments.

II.I- Insurance:

- **Provision for Unearned Premiums** – recognized based on premiums issued, calculated “pro rata die”, and represents the portion of premium corresponding to the policy period not yet elapsed; Provision for Unearned Premiums for Risks in Force but Not Yet Issued is recognized based on technical actuarial note, and has the objective of estimating a portion of unearned premiums related to risks assumed by insurance companies and that are in issue process;
- **Provision for Premium Deficiency** – recognized according to the Technical Actuarial Note if a premium deficiency is found;
- **Provision for unsettled claims** - recognized based on claims of loss in an amount sufficient to cover future commitments. To determine the value of accrued claims under awaiting judicial decision, the experts and legal advisors appointed assessments based on the insured amounts and technical regulations, taking into consideration the likelihood of unfavorable outcome to the insurance company.
- **Provision for claims incurred but not reported (IBNR)** – recognized for the estimated amount of claims occurred for risks assumed in the portfolio but not reported.
- **Other provisions** – recognized based on the technical provision for extension of warranty in the extended warranty line, and the calculation is made over the period from the date the insurance contract becomes effective and the risk initial coverage date, the amount to be recognized being equal to the retained commercial premium.

II.II - Pension Plan and Individual life with living benefits - The mathematical provisions represent amounts of obligations assumed as insurance for living benefits, retirement plans, disability, pension and annuity, and are calculated according to the method of accounting provided for in the contract.

- **Mathematical provisions for benefits to be granted and benefits granted** – correspond to commitments assumed with participants, but for which benefits are not yet due, and to those receiving the benefits, respectively;
- **Provision for insufficient contribution** – recognized in case of insufficient premiums or contributions;
- **Provision for unexpired risks** – recognized to include the estimate of outstanding risks which have not expired;
- **Provision for events incurred but not reported (IBNR)** – recognized based on the expected amounts of events occurred but not reported;
- **Provision for financial surplus** – recognized by the difference between the contributions adjusted daily by the Investment Portfolio and the accumulated fund set up;
- **Other provisions** - basically refer to the provision for administrative expenses recognized according to the Actuarial Technical Note to cover expenses arising from the payment of benefits provided for in the plan, in view of the events occurred and to be occurred. It also includes the heading redemptions and/or other unsettled amounts that refer to amounts not yet paid through the balance sheet date.

II.III - Capitalization:

- **Mathematical provision for redemptions** – represents capitalization certificates received to be redeemed;
- **Provision for Raffles** – Comprises Provision for raffles unrealized and payable. The unrealized provision for raffles is calculated according to the methodology established in the Technical Actuarial Note. The provision for raffles payable relates to certificates winners in raffles and not paid yet.
- **Other provisions** – Comprises Provision for raffle contingencies and administrative provision. The provision for raffle contingencies is recognized according to the methodology established in the Technical Actuarial Note to cover the provision for raffles in the event of insufficient funds and also for distribution of bonus. The administrative provision is recognized to cover administrative expenses of the plan, and it is calculated under the method described in the Technical Actuarial Note.

n) **Contingent assets and liabilities and legal liabilities – tax and social security** - assessed, recognized and disclosed according to the provisions set forth in CMN Resolution No. 3,823 of December 16, 2009, and BACEN Circular Letter No. 3,429 of February 11, 2010.

I - Contingent assets and liabilities

Refer to potential rights and obligations arising from past events, the occurrence of which is dependent upon future events.

- Contingent assets - not recognized, except upon evidence ensuring a high reliability level of realization, usually represented by claims awarded a final and unappealable judgment and confirmation of the recoverability of the claim through receipt of amounts or offset against another liability;
- Contingent liabilities - basically arise from administrative proceedings and lawsuits, inherent in the normal course of business, filed by third parties, former employees and governmental bodies, in connection with civil, labor, tax and social security lawsuits and other risks. These contingencies are calculated based on conservative practices, being usually recorded based on the opinion of legal advisors and considering the probability that financial resources shall be required for settling the obligation, the amount of which may be estimated with sufficient certainty. Contingencies are classified either as probable, for which provisions are recognized; possible, which are disclosed but not recognized; and remote, for which recognition or disclosure are not required. Any contingent amounts are measured through the use of models and criteria which allow their adequate measurement, in spite of the uncertainty of their term and amounts.

Escrow deposits are restated in accordance with the current legislation.

Contingencies guaranteed by indemnity clauses in privatization processes and with liquidity are only recognized upon judicial notification with simultaneous recognition of receivables, without any effect on results.

II - Legal liabilities – tax and social security

Represented by amounts payable related to tax liabilities, the legality or constitutionality of which are subject to judicial defense, recognized at the full amount under discussion.

Liabilities and related escrow deposits are adjusted in accordance with the current legislation.

- p) Taxes** - these provisions are calculated according to current legislation at the rates shown below, using the related calculation bases.

Income tax	15.00%
Additional income tax	10.00%
Social contribution (1)	15.00%
PIS (2)	0.65%
COFINS (2)	4.00%
ISS up to	5.00%

(1) For ITAÚ UNIBANCO HOLDING and its financial subsidiaries and equivalent companies, the rate corresponds to 15%. For non-financial and pension plan subsidiaries, the rate is 9%.

(2) For non-financial subsidiaries that fall into the non-cumulative calculation system, the PIS rate is 1.65% and COFINS rate is 7.6%.

The changes introduced by Laws No. 11,638 and No. 11,941 (articles 37 and 38), which modified the criterion for recognizing revenues, costs and expenses, computed to determine the net income for the year, did not produce effects for purposes of determining the taxable income of companies that opt for the Transition Tax Regime (RTT), so for tax purposes the rules effective on December 31, 2007 were followed. The tax effect arising from the adoption of such rules is recorded, for accounting purposes, in the corresponding deferred assets and liabilities.

- p) Deferred income** – this refers to: (i) unexpired interest received in advance that is recognized in income as earned, and (ii) the negative goodwill on acquisition of investments arising from expected future losses, which has not been absorbed in the consolidation process.

g) Reclassification of securities (article 5 of BACEN Circular No. 3,068, of 11/08/2001)

Management sets forth guidelines to classify securities. The classification of the current portfolio of securities, as well as the securities purchased in the period, is periodically and systematically evaluated based on such guidelines.

As set forth in Article 5 of BACEN Circular No. 3,068, of November 8, 2008, the revaluation regarding the classification of securities can only be made upon preparation of trial balances for six-month periods. In addition, the transfer from "held-to-maturity" to the other categories can only occur in view of an isolated, unusual, nonrecurring and unexpected event, which has occurred after the classification date.

No reclassifications or changes to the existing guidelines have been made in the period.

h) Derivative Financial Instruments

The globalization of the markets in recent years has resulted in a high level of sophistication in the financial products used. As a result of this process, there has been an increasing demand for derivative financial instruments to manage market risks, mainly arising from fluctuations in interest and exchange rates, commodities and other asset prices. Accordingly, ITAU UNIBANCO HOLDING and its subsidiaries operate in the derivative markets for meeting the growing needs of their clients, as well as carrying out their risk management policy. Such policy is based on the use of derivative instruments to minimize the risks resulting from commercial and financial operations.

The derivative financial instruments' business with clients is carried out after the approval of credit limits. The process of limit approval takes into consideration potential stress scenarios.

Knowing the client, the sector in which it operates and its risk appetite profile, in addition to providing information on the risks involved in the transaction and the negotiated conditions, ensures transparency in the relationship between the parties and the supply of a product that better meets the needs of the client.

The derivative transactions carried out by ITAU UNIBANCO HOLDING and its subsidiaries with clients are neutralized in order to eliminate market risks.

Most derivative contracts traded by the institution with clients in Brazil are swap, forward, option and futures contracts, which are registered at the BM&FBOVESPA or at the CETIP S.A. OTC Clearing House (CETIP). Overseas transactions are carried out with futures, forwards (onshore), options and swaps with registration mainly in the Chicago, New York and London Exchanges. It should be emphasized that there are over-the-counter operations, but their risks are low as compared to the institutions' total. Noteworthy is also the fact that there are no structured operations based on subprime assets and all operations are based on risk factors traded at stock exchanges.

The main risk factors of the derivatives, assumed at June 30, 2012, were related to the foreign exchange rate, interest rate, commodities, U.S. dollar coupon, Reference Rate coupon, Libor and variable income. The management of these and other market risk factors is supported by sophisticated statistical and deterministic models. Based on this management model, the institution, with the use of transactions involving derivatives, has been able to optimize the risk-return ratios, even under highly volatile situations.

Most derivatives included in the institution's portfolio are traded at stock exchanges. The prices disclosed by stock exchanges are used for these derivatives, except in cases in which the low representativeness of price due to liquidity of a specific contract is identified. Derivatives typically precified like this are futures contracts. Likewise, there are other instruments whose quotations (fair prices) are directly disclosed by independent institutions and which are precified based on this direct information. A great part of the Brazilian government securities, highly-liquid international (public and private) securities and shares fit into this situation.

For derivatives whose prices are not directly disclosed by stock exchanges, fair prices are obtained by pricing models which use market information, deducted based on prices disclosed for higher liquidity assets. Interest and market volatility curves which provide entry data for the models are extracted from those prices. Over-the-counter derivatives, forward contracts and securities without much liquidity are in this situation.

The total value of margins pledged in guarantee was R\$ 4,092,370 (R\$ 4,677,250 at June 30, 2011) and was basically composed of government securities.

During the period, there was no occurrence of credit event related to those set forth in agreements.

According to CMN Resolution No. 3,490, which became effective on July 1, 2008 (Note 3), the effect of the calculation of the Required Referential Equity amounts to R\$ 107,274 at 06/30/2012 (R\$ 174,587 at 06/30/2011).

V - Accounting hedge

- a) Cash flow - the purpose of the *hedge* relationship of ITAÚ UNIBANCO HOLDING is to protect the cash flows of payment of debt interest (CDB / Redeemable preferred shares) related to its variable interest rate risk (CDI / LIBOR), making the cash flow constant (fixed rate) and regardless of the variations of DI Cetip Over and LIBOR.

To protect the future cash flows of debt against exposure to variable interest rate (CDI), at June 30, 2012, ITAÚ UNIBANCO HOLDING negotiated DI Futures agreements at BM&FBOVESPA with maturity between 2012 and 2017 in the amount of R\$ R\$ 61,631,476 (R\$ 44,709,254 at June 30, 2011). To protect the future cash flows of debt against exposure to variable interest rate (LIBOR), at June 30, 2012 ITAÚ UNIBANCO HOLDING negotiated swap contracts with maturity in 2015 in the amount of R\$ 794,516 (R\$ 613,625 at June 30, 2011). These derivative financial instruments gave rise to adjustment to market value net of tax effects recorded in stockholders' equity of R\$ (356,700) (R\$ 19,449 at June 30, 2011), of which R\$ (340,816) (R\$ (31,173) at June 30, 2011) refers to CDB and (R\$ 15,884) (R\$ (11,724) at June 30, 2011) refers to Redeemable Preferred shares. The hedged items total R\$ 62,737,823 (R\$ 45,643,500 at June 30, 2011), of which R\$ 61,943,307 (R\$ 45,029,926 at June 30, 2011) are CDB with maturities between 2012 and 2017 and R\$ 794,516 (R\$ 613,625 at June 30, 2011) are swaps of Redeemable Preferred Shares with maturity in 2015.

The gains or losses related to the accounting hedge of cash flows that we expect to recognize in Results in the following 12 months amount to R\$ (91,304) (R\$ 651,122 at June 30, 2011).

The effectiveness computed for hedge portfolio was in conformity with the provisions of BACEN Circular No. 3,082 of January 30, 2002.

- b) Market Risk – The hedging strategy against market risk of ITAÚ UNIBANCO HOLDING consists in hedging the exposure to variation in market risk, receipt of interest, which are attributable to changes in interest rates related to recognized assets.

To hedge the variation in market risk in the receipt of interest, ITAÚ UNIBANCO HOLDING uses interest rate swap contracts, in the amount of R\$ 36,382. These Derivative Financial Instruments gave rise to an adjustment to market value of R\$ 73.

Hedge assets are prefixed items, in the amount of R\$ 36,382, expressed in UF (Chilean Unit of Account - CLF), issued in Chile, with maturities between 2012 and 2036. Such items gave rise to an adjustment to market value of R\$ 73 which represents the effective hedge portion recognized in income.

ITAÚ UNIBANCO HOLDING uses the market risk hedge as follows:

- To hedge against market risk variation in the receipt of interest resulting from variations in the fair value of ICPR rate (Real Promédio Camera Index).

The effectiveness computed for hedge portfolio is in conformity with the provisions of BACEN Circular No. 3.082 of January 30, 2002.

Hedge relationships were designated in 2012 and swaps will mature in 2012. Receipts (payments) of interest flows are expected to occur and will affect the statement of income in monthly periods.

- c) Related operations - the swap operations contracted in a negotiation associated with the funding and/or investment in the amount of R\$ 36,916 (R\$ 47,980 at June 30, 2011) are recorded at amounts restated in accordance with variations occurred in respective ratios ("curve") and are not valued at their market value, as permitted by BACEN Circular No. 3,150, of September 11, 2002.

j) Sensitivity analysis (TRADING AND BANKING PORTFOLIOS)

In compliance with CVM Instruction No. 475 of December 17, 2008, ITAÚ UNIBANCO HOLDING carried out a sensitivity analysis by market risk factors considered relevant to which the group was exposed. Each market risk factor was subject to a sensitivity level, with shock applications of 25% and 50%, both for growth and fall. The biggest losses arising, by risk factor, in each scenario, were stated with impact on result, net of tax effects, by providing a vision of the ITAÚ UNIBANCO HOLDING exposure under exceptional scenarios.

Measurement of market risk segregates operations in trading portfolio and banking portfolio, pursuant to the criteria set forth in the New Capital Accord – Basel II and in the instructions CMN Resolution No. 3,464 of June 26, 2007 and BACEN Circular No. 3,354 of June 27, 2007.

The sensitivity analyses shown in this report are an evaluation of an instant position of the portfolio exposure and, therefore, do not consider the management's quick response capacity (treasury and control areas), which triggers risk mitigating measures, whenever a situation of high loss or risk is identified by minimizing the sensitivity towards significant losses. In addition, we point out that the presented results do not necessarily translate into accounting results, because the study's sole purpose is to disclose the exposure to risks and the respective protective actions, taking into account the fair value of financial instruments, irrespective of the accounting practices adopted by the institution.

Trading portfolio consists of all transactions, including derivatives, which are held with the intention of trading in the short term or of hedging other financial instruments of this portfolio, and that are not subject to limitations on their marketability. These are transactions designated for obtaining benefits from price movements, actual or expected in the short term or conduction of arbitrage.

NOTE 12 - CONTINGENT ASSETS AND LIABILITIES AND LEGAL LIABILITIES – TAX AND SOCIAL SECURITY

In the ordinary course of its businesses, ITAÚ UNIBANCO HOLDING CONSOLIDATED is involved in contingencies that may be classified as follows.

a) Contingent Assets: there are no contingent assets recorded.

b) Provisions and Contingencies: The criteria to quantify contingencies are adequate in relation to the specific characteristics of civil, labor and tax lawsuits portfolios, as well as other risks.

- Civil lawsuits:

Collective lawsuits (related to claims considered similar and which each individual amount is not considered significant): contingencies are determined on a monthly basis and the expected amount of losses is accrued according to statistical references that take into account the type of lawsuit and the characteristics of the legal body (Small Claims Court or Regular Court).

Individual lawsuits (related to claims with unusual characteristics or involving significant amounts): determined from time to time, based on the amount claimed and the likelihood of loss, which, in turn, is estimated according to the “de facto” and “de jure” characteristics related to such lawsuit. The amounts of losses which likelihood of loss is considered probable are accrued.

Contingencies usually arise from revision of contracts and compensation for property damage and pain and suffering; most of these lawsuits are filed in the Small Claims Court and therefore limited to 40 minimum monthly wages. ITAÚ UNIBANCO CONSOLIDATED is also party to specific lawsuits over the charging of understated inflation adjustment to savings accounts in connection with economic plans.

The case law at the Federal Supreme Court is favorable to banks in relation to an economic phenomenon similar to savings, as in the case of adjustment to time deposits and contracts in general. Additionally, the Superior Court of Justice has recently decided that the term for filing public civil actions over understated inflation is five years. In view of such decision, some of the lawsuits may be dismissed because they were filed after the five-year period.

In the accounting books no amount is recognized in relation to Civil Lawsuits which likelihood of loss is considered possible, which total estimated risk is R\$ 1,636,535 and main natures of these lawsuits refer to claims form compensation or collections, the individual amounts of which are not significant.

- Labor claims

Collective lawsuits (related to claims considered similar and which each individual amount is not considered significant): The expected amount of loss is determined and accrued monthly according to the statistical share pricing model, plus the average cost of fees. These are adjusted to the amounts deposited as guarantee for their execution when realized.

Individual lawsuits (related to claims with unusual characteristics or involving significant amounts): determined from time to time, based on the amount claimed and the likelihood of loss, which, in turn, is estimated according to the “de facto” and “de jure” characteristics related to such lawsuit. The amounts of losses which likelihood of loss is considered probable are accrued.

Contingencies are related to lawsuits in which alleged labor rights based on labor legislation specific to the related profession, such as overtime, salary equalization, reinstatement, transfer allowance, pension plan supplement and other, are discussed;

There are no labor claims falling under the category of possible loss.

- Other Risks

These are quantified and accrued mainly based on the evaluation of rural credit transactions with joint liability and FCVS (salary variations compensation fund) credits assigned to Banco Nacional.

The table below shows the changes in the respective provisions for contingent liabilities and the respective escrow deposits balances:

- **Tax and social security lawsuits**

Contingencies are equivalent to the principal amount of taxes involved in tax, administrative or judicial challenges, subject to tax assessment notices, plus interest and, when applicable, fines and charges. The amount is accrued when it involves legal obligation, regardless of the likelihood of loss, that is, a favorable outcome to the institution is dependent upon the recognition of the unconstitutionality of the applicable law in force. In other cases, the Bank recognizes a provision whenever the likelihood of loss is probable.

The main discussions related to Legal Obligations are described as follows:

- PIS and COFINS – Calculation basis – R\$ 3,182,504: we defend the levy of contributions on revenue, understood as the revenue from sales of assets and services. The escrow deposit balance totals R\$ 1,093,830.
- CSLL – Isonomy – R\$ 1,641,054, as the law increased the CSLL rate for financial and insurance companies to 15%, we discuss the lack of constitutional support for this measure and, due to the principle of isonomy, we defend the levy at the regular rate of 9%. The escrow deposit balance totals R\$ 356,285.
- IRPJ and CSLL –Taxation of profits earned abroad – R\$ 504,535: We discuss the calculation basis for levy of these taxes on profits earned abroad and the non-applicability of Regulatory Instruction SRF No. 213-02 in which it exceeds the suitability of the legal text. The escrow deposit balance totals R\$ 462,979.
- PIS – R\$ 379,849 - Principles of anteriority over 90 days and non-retroactivity: we request the rejection of Constitutional Amendments No. 10/96 and 17/97 in view of the principle of anteriority and non-retroactivity, aiming at making payments based on Supplementary Law No. 07/70. The corresponding escrow deposit totals R\$ 109,183.

Off-balance sheet contingencies - The amounts related to Tax and Social Security Lawsuits considered to be as possible loss, which total estimated risk is R\$ 7,397,154, are the following:

- IRPJ, CSLL, PIS and COFINS – request for offset dismissed - R\$ 1,370,272: cases in which the liquidity and the offset credit certainty are discussed.
- IRPJ/CSLL - Interest on capital - R\$ 925,956: we defend the deductibility of interest on capital declared to stockholders based on the Brazilian long-term interest rate (TJLP) on the stockholders' equity for the year and for prior years.
- INSS – Non-compensatory amounts – R\$ 857,216: we defend the non-taxation of these amounts, mainly profit sharing, transportation vouchers and sole bonus.
- IRPJ/CSLL - Losses and discounts on receipt of credits – R\$ 447,727: deductibility of effective losses as operating expense – credit assignment and renegotiation.
- ISS – Banking Institutions – R\$ 402,081: these are banking operations, which revenue may not be interpreted as price per service rendered and/or arises from activities not listed under a Supplementary Law.
- IRPJ, CSLL – Profit made available abroad R\$ 314,058: Application of the Brazilian tax rule (taxable income) – IN 213/2002 and non availability of profit with the simple transfer of capital between the Holding's investees.

c) Receivables - Reimbursement of contingencies

The Receivables balance arising from reimbursements of contingencies totals R\$ 716,056 (R\$ 804,968 at 06/30/2011) (Note 13a), basically represented by the guarantee in the Banco Banerj S.A. privatization process occurred in 1997, in which the State of Rio de Janeiro created a fund to guarantee the equity recomposition of Civil, Labor and Tax Contingencies.

d) Assets pledged as Contingencies

Assets pledged in guarantee for contingencies are related to liability contingencies and restricted or deposited as presented below:

	06/30/2012	06/30/2011
Securities (basically Financial Treasury Bills – Note 7b)	1,452,039	1,534,731
Deposits in guarantee	4,343,923	3,339,365

According to the opinion of its legal advisors, ITAÚ UNIBANCO HOLDING and its subsidiaries are not involved in any other administrative or judicial proceedings that may significantly impact the results of their operations. The combined evaluation of all existing provisions for all contingent liabilities and legal obligations, which are recognized based on statistical models for claims involving small amounts and on individual evaluation by internal and external legal advisors of other cases, showed that the accrued amounts are sufficient, as provided for by CMN Resolution No. 3,823, of December 16, 2009, and BACEN Circular Letter No. 3,429, of February 11, 2010.

Total (Note 4o)	(2,208,531)	(2,159,626)

At ITAÚ UNIBANCO HOLDING tax expenses are basically composed of PIS and COFINS in the amount of R\$ 108,958 (R\$ 131,210 from 01/01 to 06/30/2011).

III- Tax effects on foreign exchange management of investments abroad

In order to minimize the effects on income in connection with the foreign exchange variation on investments abroad, net of respective tax effects, ITAÚ UNIBANCO HOLDING carries out derivative transactions in foreign currency (*hedge*), as mentioned in Note 22b.

Results of these transactions are considered in the calculation base of income tax and social contribution, according to their nature, while the foreign exchange variation on investments abroad is not included therein, pursuant to tax legislation in force.

b) Deferred taxes

I - The deferred tax asset balance and its changes, segregated based on its origin and disbursements incurred, are represented as follows:

Total	9,878,920	(1,834,767)	1,450,481	9,494,634	10,168,114

At ITAÚ UNIBANCO HOLDING, the Provision for deferred income tax and social contribution totals R\$ 4,281 (R\$ 3,366 at 06/30/2011), basically represented by Restatement of escrow deposits and contingent liabilities.

III - The estimate of realization and present value of deferred tax assets and social contribution for offset, arising from Provisional Measure No. 2,158-35 of August 24, 2001 and from the Provision for Deferred Income Tax and Social Contribution existing at June 30, 2012, in accordance with the expected generation of future taxable income, based on the history of profitability and technical feasibility studies, are:

(*) The average funding rate, net of tax effects, was used to determine the present value.

The projections of future taxable income include estimates related to macroeconomic variables, exchange rates, interest rates, volume of financial operations and services fees and others which can vary in relation to actual data and amounts.

Net income in the financial statements is not directly related to taxable income for income tax and social contribution, due to differences existing between accounting criteria and tax legislation, besides corporate aspects. Accordingly, we recommend that the trend of the realization of deferred tax assets arising from temporary differences, income tax and social contribution loss carryforwards be not used as an indication of future net income.

IV - In view of the unconstitutionality lawsuit related to the increase in the social contribution rate, established by Articles 17 and 41 of Law No. 11,727 of June 24, 2008, filed on June 26, 2008 by the National Confederation of the Financial System (CONSIF), deferred tax assets were recorded up to the amount added to the Tax Liabilities, while the amount of R\$ 745,301 is unrecorded (R\$ 1,343,737 at 06/30/2011).

c) Tax and social security contributions

Total	20,182,199	19,285,743

At ITAÚ UNIBANCO HOLDING, the balance of Tax and Social Security Contributions totals R\$ 963,203 (R\$ 738,907 at 06/30/2011) and is basically comprised of Legal Liabilities - Tax and Social Security of R\$ 901,435 (R\$ 633,739 at 06/30/2011), whose nature refers to PIS and COFINS – Revenue x Gross Revenue. We request either the levy of taxes only on the revenue understood as income from sale of assets and services or the levy of PIS Repique (calculated on income tax payable) (at 5% of income tax due), in lieu of the levy on total revenues recorded, by alleging the unconstitutionality of paragraph 1 of article 3 of Law No. 9,718/98.

d) Taxes paid or provided for and withheld from third parties

The amount of taxes paid or provided for is basically levied on income, revenue and payroll. In relation to the amounts withheld and collected from third parties, the Company takes into consideration the interest on capital and on the service provision, in addition to that levied on financial operation.

b) Dividends

Stockholders are entitled to a mandatory dividend of not less than 25% of annual net income, which is adjusted according to the rules set forth in Brazilian Corporate Law. Both types of shares participate equally, after common shares have received dividends equal to the annual minimum priority dividend of R\$ 0.022 per share to be paid to preferred shares.

The calculation of the monthly advance of mandatory minimum dividend is based on the share position on the last day of the prior month, taking into consideration that the payment is made on the first business day of the subsequent month, in the amount of R\$ 0.012 per share, and beginning with the payment made in April 2012, it was increased by 25% to R\$ 0.015 per share, in accordance with the Board of Directors' meeting of February 6, 2012.

f) Stock Option Plan

I – Purpose and Guidelines of the Plan

The ITAÚ UNIBANCO HOLDING has a stock option plan for its executives. This program aims at involving the management members in the medium and long-term corporate development process, by granting simple stock options or partner options, personal, not pledgeable or transferable, which entitle to the subscription of one authorized capital share or, at the discretion of the management, one treasury share which has been acquired for replacement purposes.

Such options may only be granted in years in which there are sufficient profits to enable the distribution of mandatory dividends to stockholders and at a quantity that does not exceed the limit of 0.5% of the total shares held by the stockholders at the base date of the year-end balance sheet. The ITAÚ UNIBANCO HOLDING's Personnel Committee is responsible for defining the total quantity, the beneficiaries, the type of option, the life of the option under each series, which may range from a minimum of 5 and a maximum of 10 years, and the vesting period for exercising the options and the period the acquired shares are unavailable due to the exercise of the options. The executive officers and Board of Directors members of ITAÚ UNIBANCO HOLDING and of its subsidiaries and employees may participate in this program, based on assessment of potential and performance.

Currently, ITAÚ UNIBANCO HOLDING settles the benefits under this PLAN only by delivering its own shares, which are held in treasury until the effective exercise of the options by the beneficiaries.

II - Characteristics of the Programs

II.I – Simple Options

Prior Programs

Before the merger, Itaú and Unibanco each had Stock Option Plans (Prior Programs). The eligible beneficiaries of the program were granted simple options, depending upon the individual employee performance. The exercise price is calculated based on the average prices of preferred shares at the BM&FBOVESPA trading sessions over the period of at least one (1) and at the most three (3) months prior to the option issue date; alternatively, subject to the positive or negative adjustment of up to 20%, and restated until the last business day of the month prior to the option exercise date based either on the IGP-M or IPCA, in its absence, based on the index determined by the committee. Options are no longer granted under this model.

Post-Merger Program

The eligible beneficiaries of the program are granted simple options, dependent upon the individual employee performance. The exercise price is calculated based on the average prices of preferred shares at the BM&FBOVESPA in the last three months of the year prior to the granting date or, alternatively, subject to the positive or negative adjustment of up to 20%. The exercise price is adjusted based on the IGPM or, in its absence, based on the index determined by the committee.

The vesting period is from one (1) to seven (7) years, counted from the issue date.

II.II – Partners Plan

Executives selected to participate in the program may invest a percentage of their bonus to acquire shares or they have the right to receive shares ("Share-Based Instrument"). Title to the shares acquired, as well as the share-based instruments, should be held by the executives for a period of 3 to 5 years and they are subject to market fluctuation. At the time they acquire own shares and/or share-based instruments, Partner Options are granted in accordance with the classification of executives. Vesting period of Partners Options or share-based instruments is from 1 to 7 years. Share-based instruments and Partner options are converted into own shares of ITAÚ UNIBANCO HOLDING in the ratio of one preferred share for each instrument after the respective vesting period, with no payment of amounts in legal tender during the exercise.

The acquisition price of own shares and Share-Based Instruments is established every six months and it is equivalent to the average preferred share quotation at the BM&FBOVESPA trading sessions in the 30 days prior to the determination of said price.

Title to the shares received after the vesting period of the Partners Options should be held, without any liens or encumbrances, for periods from 5 to 8 years, counted from the date of acquisition of own shares.

The weighted average fair value of the Share-Based Instruments at the granting date was estimated for the shares purchased in the period ended June 30, 2012 – R\$ 36.00 per share (at June 30, 2011 - R\$ 37.00 per share).

The fair value of the Share-Based Instruments is the market price quoted at the granting date for preferred shares of ITAÚ UNIBANCO HOLDING less the cash price paid by the beneficiaries. Amount received for the purchase of Share-Based Instruments for the period ended June 30, 2012 - R\$ 50,361 (at June 30, 2011 - R\$ 48,489).

III – Fair Value and Economic Assumptions for Cost Recognition

ITAÚ UNIBANCO HOLDING recognizes, at the granting date, the fair value of options through the Binomial method for Simple Options and the Black & Scholes method for Partners Options. Economic assumptions used are as follows:

Exercise price: for the option exercise price, the exercise price previously agreed upon at the option issue is adopted, adjusted by the IGP-M variation;

Price of the underlying asset: the share price of ITAÚ UNIBANCO HOLDING (ITUB4) used for calculation is the closing price at BM&FBOVESPA on the calculation base date;

Expected dividends: the average annual return rate for the last three years of the dividends paid, plus interest on capital of the ITUB4 share;

Risk-free interest rate: the applied risk-free rate is the IGP-M coupon rate at the expiration date of the option plan;

Expected volatility: calculated based on the standard deviation from the history of the last 84 monthly returns of closing prices of the ITUB4 share, released by BM&FBOVESPA, adjusted by the IGP-M variation.

(*) The fair value of option is measured based on the fair value of Itaú Unibanco share at the granting date.

IV - Accounting Effects Arising from Options

The exercise of stock options, pursuant to the Plan's regulation, resulted in the sale of preferred shares held in treasury thus far. The accounting entries related to the plan are recorded during the vesting period, at the deferral of the fair value of options granted with effect on Income, and during the exercise of options, at the amount received from the option exercise price, reflected in Stockholders' Equity.

The effect of Income for the period from January 1 to June 30, 2012 was R\$ (88,214) (R\$ (80,112) from January 1 to June 30, 2011), as contra-entry to Capital Reserve – Granted Options Recognized – Law No. 11,638 (Note 16 c).

In the Stockholders' Equity, the effect was as follows:

	06/30/2012	06/30/2011
Amount received for the sale of shares – exercised options	193,673	154,669
(-) Cost of treasury shares sold	(217,730)	(138,568)
(+) Write-off of cost recognized of exercised options	86,991	55,548
Effect on sale (*)	62,934	71,649

(*) Recorded in revenue reserves.

In addition to the aforementioned operations, ITAÚ UNIBANCO HOLDING and non-consolidated related parties, as an integral part of the Agreement for Apportionment of Common Costs of Itaú Unibanco, recorded in Other Administrative Expenses in the amount of R\$ 4,691 (R\$ 4,602 from 01/01 to 06/30/2011) in view of the use of common structure.

In accordance with the rules in effect, the financial institutions cannot grant loans or advances to the following:

- a) any individual or company that control the Institution or any entity under common control with the institution, or any officer, director, fiscal council member or direct relative of such individuals;
- b) any entity controlled by the Institution; or
- c) any entity of which the bank directly or indirectly holds at least 10% of capital stock.

Therefore, no loans or advances are made to any subsidiaries, executive officers, Board of Directors members or their relatives.

Itaú Unibanco Holding made regular donations to Fundação Itaú Social, a philanthropic foundation which objectives are: to create "Programa Itaú Social", aimed at coordinating activities that are of the community's interest, support and develop social, scientific and cultural projects, mainly in the elementary education and health areas; support projects or initiatives in progress, maintained or sponsored by entities qualifying to work, according to "Programa Itaú Social". In addition, Itaú Unibanco is the founding partner and sponsor of Instituto Itaú Cultural - IIC, an entity which objective is to promote and preserve the Brazilian cultural heritage.

NOTE 18 - MARKET VALUE

The financial statements are prepared in accordance with accounting principles which assume the normal continuity of the operations of ITAÚ UNIBANCO HOLDING and its subsidiaries.

The book value of each financial instrument, whether included or not in the balance sheet (comprises investments in affiliates and other investments), when compared to the value that might be obtained in an active market, or in the absence of such market, using the net present value of future cash flows adjusted based on the current market interest, is approximately equal to the market value, or does not have a market quotation available, except for the instruments in the table below:

(1) This does not consider the corresponding tax effects.

(2) Starting December 2011, Redecard is no longer disclosed since it is an investment in subsidiary.

(3) Unrealized result, considers adjustments to market value of available-for-sale securities.

(4) Parent company of Porto Seguro S.A.

(5) The investment held by minority stockholders does not affect the result of ITAÚ UNIBANCO HOLDING.

(6) Funding is represented by interbank and time deposits, funds from acceptance and issuance of securities and borrowings.

To obtain the market values for these financial instruments, the following criteria were adopted:

- Interbank investments were determined based on their nominal amounts, monetarily restated to maturity dates and discounted to present value using future market interest rates and swap market rates for fixed-rate securities and using market interest rates for fixed-rate securities, achieved at the closing of BM&FBOVESPA at the balance sheet date, for floating-rate securities;
- Securities and derivative financial instruments, according to the rules established by Circulars No. 3,068 and 3,082 of November 8, 2001 and January 30, 2002, respectively, issued by the Central Bank of Brazil (BACEN), are recorded at their market value, except for those classified as Held to Maturity. Government securities allocated in this category have their market value calculated based on the rates obtained in the market, and validated through the comparison with information provided by the National Association of Financial Market Institutions (ANBIMA). Private securities included in this category have their market value calculated using a criterion similar to the one adopted for Investments in Interbank Deposits, as described above;
- Loans with maturity over 90 days, when available, were calculated based on the net present value of future cash flows discounted at market interest rates effective on the balance sheet date, taking into account the effects of *hedges* as well (swap contracts);
- Investments - in companies BPI, BM&FBOVESPA, CETIP and Porto Seguro at the share value in stock exchanges and Serasa S.A. based on the historical average of Price/Income ratio of its parent company.
- Time and interbank deposits and funds from acceptance and issuance of securities and foreign borrowings through securities, when available, were calculated based on their present value determined by future cash flows discounted at market rates obtained at the closing of BM&FBOVESPA on the balance sheet date;
- Subordinated debt, based on the net present value of future fixed or floating cash flows in foreign currency, net of the market interest rates effective on the balance sheet date and considering the credit risk of the issuer. The floating cash flows are estimated as from the interest curves of the indexation market places;
- Treasury shares are valued according to the average quotation available on the last trading day of the month or, if this is not available, according to the most recent quotation on prior trading days, published in the daily bulletin of each Stock Exchange.

NOTE 19 – BENEFITS TO EMPLOYEES

Pursuant to CVM Resolution No. 600, dated October 7, 2009, we present the policies adopted by ITAÚ UNIBANCO HOLDING and its subsidiaries regarding benefits to employees, as well as the accounting procedures adopted:

ITAÚ UNIBANCO HOLDING and some of its subsidiaries sponsor defined benefit and variable contribution plans, which basic purpose is granting benefits that, in general, provide a life annuity benefit, and may be converted into survivorship annuities, according to the plan's regulation. They also sponsor defined contribution plans, the benefit of which is calculated based on the accumulated balance at the eligibility date, according to the plan's regulation, which does not require actuarial calculation.

Employees hired until July 31, 2002, who come from Itaú, and until February 27, 2009, who come from Unibanco, are beneficiaries of the above-mentioned plans. As regards the employees hired after these dates, they have the option to voluntarily participate in a defined contribution plan (PGBL), managed by Itaú Vida e Previdência S.A.

a) Description of the Plans

The plans' assets are invested in separate funds, with the exclusive purpose of providing benefits to eligible employees, and they are maintained independently from ITAÚ UNIBANCO HOLDING. These funds are maintained by closed-end private pension entities with independent legal structures, as detailed below:

I - Main assumptions used in actuarial valuation of Retirement Plans

	2012	2011
Discount rate	9.72% p.a.	9.72% p.a.
Expected return rate on assets	11.32 % p.a.	12.32% p.a.
Mortality table (1)	AT-2000	AT-2000
Turnover (2)	Itaú Exp. 2008/2010	Itaú Exp. 2003/2004
Future salary growth	7.12 % p.a.	7.12% p.a.
Growth of the pension fund and social security benefits	4.00 % p.a.	4.00% p.a.
Inflation	4.00 % p.a.	4.00% p.a.
Actuarial method (3)	Projected Unit Credit	Projected Unit Credit

(1) The mortality tables adopted correspond to those disclosed by SOA – Society of Actuaries, the North-American Entity which corresponds to IBA – Brazilian Institute of Actuarial Science, which reflects a 10% increase in the probabilities of survival as compared to the respective basic tables;

The life expectancy in years by the AT-2000 mortality table for participants of 55 years of age is 27 and 31 years for men and women, respectively.

(2) The turnover assumption is based on the effective experience of ITAÚ UNIBANCO HOLDING, resulting in the average of 2.4% p.a. based on the 2008/2010 experience;

(3) Using the Projected Unit Credit, the mathematical reserve is determined by the current projected benefit amount multiplied by the ratio between the length of service in the company at the assessment date and the length of service that will be reached at the date when the benefit is granted. The cost is determined taking into account the current projected benefit amount distributed over the years that each participant is employed.

The basic difference between the assumptions above and those adopted upon determination of the actuarial liability of defined benefit plans, for purposes of recording in the balance sheet of the closed-end private pension entities that manage them, is the actuarial method. For this purpose, the Bank adopts the aggregate method, by which the mathematical reserve is defined based on the difference between the present value of the projected benefit and the present value of future contributions, subject to the methodology defined in the respective actuarial technical note.

II –Management of defined benefit plan assets

The purpose of the management of the funds from the closed-end private pension entities is the long-term balance between social security assets and liabilities by exceeding the actuarial goals.

As regards the assets guaranteeing mathematical reserves, management should ensure the payment capacity of benefits in the long-term by preventing the risk of mismatching assets and liabilities by pension plan.

At June 30, 2012 the allocation of plan assets and the allocation target for 2012, by type of asset, are as follows:

Types	At 06/30/2012	At 06/30/2011	% Allocation		
			06/30/2012	06/30/2011	2012 Target
Fixed income securities	11,217,192	10,201,466	91.76%	87.62%	53% a 100%
Variable income securities	628,634	1,050,561	5.14%	9.02%	0% a 25%
Structured investments	14,561	13,695	0.12%	0.12%	0% a 10%

Loans to participants	23,267	24,477	0.19%	0.21%	0% a 5%
Total	12,224,812	11,643,441	100.00%	100.00%	

The defined benefit plan assets include shares of ITAÚ UNIBANCO HOLDING, its main parent company (ITAÚSA) and of subsidiaries of the latter, with a fair value of R\$ 474,131 (R\$ 478,186 at 06/30/2011), and real estate rented to Group companies, with a fair value of R\$ 293,126 (R\$ 299,073 at 06/30/2011).

The expected income from defined benefit plan assets is based on projections of returns for each of the segments detailed above. For the fixed-income segment, the adopted interest rates were taken from long-term securities included in the portfolios, and the interest rates practiced in the market at the closing of the balance sheet. For the variable-income segment, conservative expectations of annual returns were adopted. For the real estate segment, the cash inflows of expected rental payments for the following 12 months were adopted. For all segments, the basis adopted was the portfolio positions at the balance sheet date.

III- Net amount recognized in the balance sheet

We present below the calculation of the net amount recognized in the balance sheet:

	06/30/2012	06/30/2011
1 - Net assets of the plans	12,224,812	11,643,441
2 - Actuarial liabilities	(10,612,531)	(10,106,711)
3- Surplus (1-2)	1,612,281	1,536,730
4- Asset restriction (*)	(1,354,081)	(1,215,740)
5 - Net amount recognized in the balance sheet (3-4)	258,200	320,990
Amount recognized in Assets	449,954	443,570
Amount recognized in Liabilities	(191,754)	(122,580)

(*) Corresponds to the excess of present value of the available economic benefit, in conformity with item 58 of CVM Resolution No. 600.

In conformity with the exemption set forth in CVM Resolution No. 647, gains and losses accumulated to 01/01/2010 were recognized in Stockholders' equity, net of tax effects and, taking into account the subsidiary company's adjustments. The actuarial gains and losses for the period from 01/01 to 06/30/2012 were recognized in Results under "Personnel expenses".

IV - Change in net assets, actuarial liabilities, and surplus

Experience adjustments in net assets	108,885	1,603
Experience adjustments in actuarial liabilities	-	(1,616)

V- Total revenue (expenses) recognized in income for the period

Total expenses recognized in defined benefit plans include components, as follows:

	06/30/2012	06/30/2011
Cost of current service	(42,214)	(47,152)
Cost of interest	(492,478)	(467,086)
Expected return on the plan assets	651,243	673,037
Effect on asset restriction	(91,471)	(107,062)
Gain/(loss) for the period	108,885	(13)
Contributions of participants	6,814	4,507
Total revenue (expenses) recognized in income for the period	140,780	56,231

During the period, contributions made totaled R\$ 20,551 (R\$ 15,869 at June 30, 2011). The contribution rate increases based on the beneficiary's salary.

In 2012, the expected contribution to retirement plans sponsored by ITAÚ UNIBANCO HOLDING is R\$ 38,870.

We present below the estimated benefit payments for the next 10 years:

Period	Estimated payment
2012	645,780
2013	673,231
2014	697,244
2015	721,382
2016	746,311
2017 to 2021	4,118,739

c) Defined contribution plans

The defined contribution plans have pension funds set up by the portion of sponsors' contributions not included in the participant's accounts balance and by the loss of eligibility to a plan benefit, as well as by resources from the migration from the defined benefit plans. The fund will be used for future contributions to the individual participants' accounts, according to the rules of the respective benefit plan regulation.

At June 30, 2012 the amount recognized in assets is R\$ 1,475,256 (R\$ 1,176,445 at 06/30/2011).

Total revenue recognized in defined contribution plans includes the following components:

	06/30/2012	06/30/2011
Contributions	(74,671)	(73,601)
Actuarial gain/(loss)	107,269	(1,380)
Effect on asset restriction	(528)	82,259
Total revenue recognized in income for the period	32,070	7,278

In conformity with the exemption set forth in CVM Resolution No. 647, gains and losses accumulated until 01/01/2010 were recognized in Stockholders' equity, net of tax effects and, taking into account the subsidiary company's adjustments. The actuarial gains and losses for the period from 01/01 to 06/30/2012 were recognized in Results under "Personnel expenses".

In the period, contributions to the defined contribution plans, including PGDL, totaled R\$ 96,864 (R\$ 93,022 at 06/30/2011), of which R\$ 74,671 (R\$ 73,601 at 06/30/2011) arises from pension funds.

d) Other post-employment benefits

ITAÚ UNIBANCO HOLDING and its subsidiaries do not offer other post-employment benefits, except in those cases arising from maintenance obligations according to the acquisition agreements signed by Itaú Unibanco Holding, under the terms and conditions established, in which health plans are totally or partially sponsored for retired workers and beneficiaries.

I- Changes

Based on the reported prepared by an independent actuary, the changes in obligations for these other projected benefits and the amounts recognized in the balance sheet, under liabilities, of Itaú Unibanco Holding are as follows:

	06/30/2012	06/30/2011
At the beginning of the period	(120,154)	(105,335)
Cost of interest	(5,689)	(4,984)
Benefits paid	2,702	2,894
At the end of the period	(123,141)	(107,425)

In conformity with the exemption set forth in CVM Resolution No. 647, gains and losses accumulated until 01/01/2010 were recognized in Stockholders' equity, net of tax effects and, taking into account the subsidiary company's adjustments. The actuarial gains and losses for the period from 01/01 to 06/30/2012 were recognized in Results under "Personnel expenses".

We present below the estimated benefit payments for the next 10 years:

Period	Estimated payment
2012	6,366
2013	6,852
2014	7,362
2015	7,854
2016	8,363
2017 to 2021	50,248

II- Assumptions and sensitivities 1%

For calculation of benefits obligations projected beyond the assumptions used for the defined benefit plans (Note 19b I), the 8.16% p.a. increase in medical costs assumption is adopted.

Assumptions for rates related to medical assistance costs have a significant impact on the amounts recognized in income. A change of one percentage point in the medical assistance cost rates would have the effects as follows:

	1.0% increase	1.0% decrease
Effects on service cost and cost of interest	1,609	(1,321)
Effects on present value of obligation	16,559	(13,563)

NOTE 21 – RISK MANAGEMENT

The purpose of risk identification is to map the risk events of internal and external nature that may affect the strategies of support and business units and the fulfillment of their objectives, with possibility of impact on income, capital and liquidity of the bank.

Risk management is considered by ITAÚ UNIBANCO HOLDING an essential tool for optimizing the use of resources and selecting the best business opportunities, in order to maximize shareholder value.

At ITAÚ UNIBANCO HOLDING, Risk Management is the process in which:

- The existing and potential risks from the bank operations are identified and measured;
- Policies, procedures and methodologies for risk management and control consistent with the Board of Directors' guidelines and the bank's strategies are approved;
- The bank's risk portfolio is managed considering the best risk-return ratio;

Risk management processes are spread throughout the whole institution, with full involvement of the Board of Directors and Executives that, through Committees of the Board of Directors and Senior Commissions, define the global objectives that are measured as goals and limits to the risk management units. Control units, in turn, support the bank's management by monitoring and analyzing risk.

ITAÚ UNIBANCO HOLDING's risk management organizational structure is in accordance with the Basel Accord's recommendations. The control structure of Market, Credit, Liquidity, Operational and Underwriting risks is centralized at ITAÚ UNIBANCO HOLDING aiming at assuring that the conglomerate risks are being managed in accordance with established policies and procedures. The purpose of centralizing control is to provide the Executives and the Board of Directors with an overview of conglomerate's risk exposure, so as to optimize and speed up corporate decision-making.

The purpose of that structure is to follow up the regulatory requirements issued by the conglomerate's lead institution. ITAÚ UNIBANCO HOLDING manages proprietary IT systems to fully meet the applicable rules on capital reserve in connection with the capital portions, pursuant to determinations and models issued by the Central Bank (BACEN). It also coordinates actions to check for adherence to qualitative and quantitative requirements established by the relevant authorities for compliance with the minimum mandatory capital requirement.

In compliance with Resolution No. 3,988 of June 30, 2011 of the National Monetary Council (CMN), ITAÚ UNIBANCO HOLDING is defining and implementing its capital management structure. In January 2012 the Board of Directors has recently approved the appointment of an officer in charge and definition of the required structure to meet the resolution requirements, applicable to the whole financial group and the other companies included in the economic-financial conglomerate. The institutional policy has also been recently approved by the Board of Directors, and processes, procedures and systems required for the effective implementation of the capital management structure have been established.

Further information on risk management can be found on the website www.itaunibanco.com.br/ri, under section Corporate Governance/Risk Management – Circular 3.477.

I – Market Risk

Market risk is the possibility of incurring losses arising from the variations in the market values of positions held by a financial institution, including the risks of transactions subject to the variations in foreign exchange and interest rates, and equities and commodity prices.

The market risk management is the process through which the institution plans, monitors and controls the risks of variations in financial instruments market values, aiming at optimizing the risk-return ratio, by using an appropriate structure of Adequate management limits, models and tools.

The scope of the market risk control carried out by ITAÚ UNIBANCO HOLDING is extended to all the financial instruments included in the portfolios of companies under its responsibility. In this sense, the ITAÚ UNIBANCO HOLDING's Market Risk Management Policy is in line with the principles of Resolution No. 3,464 of June 26, 2007, issued by the National Monetary Council (CMN) (as amended), being a set of principles that drive the institution's strategy towards control and management of market risk of all business units and legal entities of the ITAÚ UNIBANCO HOLDING.

The document that details the guidelines set out by this internal policy on market risk control can be read on the website www.itaunibanco.com.br/ri, in the section Corporate Governance, Rules and Policies, Public Access Report – Market Risk.

The control of market risk is carried out by an area independent from the business ones, and is responsible for carrying out daily measurement, assessment and report activities by way of control units set in the legal entities of ITAÚ UNIBANCO HOLDING. The executive area also performs the monitoring, assessment and consolidated reporting of market risk information, including possible extrapolation of risk limits, reporting the event to the business unit in charge and monitoring the actions required to adjust the position and/or risk level. For this purpose, the ITAÚ UNIBANCO HOLDING relies on a structured communication and information process, aiming at providing feedback for the follow-up of the superior committees and compliance with the regulatory bodies in Brazil and abroad.

The market risk control and management process is submitted to periodic reviews aimed at keeping it aligned with the best market practices and adhering to the continuous improvement processes at ITAÚ UNIBANCO HOLDING.

The process for managing market risks of ITAÚ UNIBANCO HOLDING occurs within the governance and hierarchy of committees and limits approved specifically for this purpose, and that covers from the monitoring of aggregate indicators of risk to granular limits, assuring effectiveness and coverage of control. These limits are dimensioned considering the projected results of the balance sheet, the level of equity and the profile of risk of each legal entity, which are defined in terms of risk measures used by management. Limits are monitored daily and excesses are reported and discussed in the corresponding committees.

The structure of limits is designed and approved by the Superior Risk Committee (CSRisc), after discussions and deliberations by the Superior Institutional Treasury Committee (CSTI) about metrics and market risk limits.

The market risk analyses are conducted based on the following metrics:

- Value at Risk (VaR): statistical measure that estimates the expected maximum potential economic loss under normal market conditions, considering a defining holding period and confidence level;
- Losses in Stress Scenarios: simulation technique to assess the behavior of assets and liabilities of a portfolio when several risk factors are taken to extreme market situations (based on prospective scenarios);
- Stop Loss: effective losses added to the maximum potential loss in bullish and bearish scenarios;
- Earnings at Risk (EaR): Measure that quantifies the P&L impact of a given portfolio, considering regular market conditions, time horizon related to the longest transaction in the banking portfolio and a predetermined confidence interval.

In addition to the aforementioned risk measures, sensitivity and loss control measures are also analyzed. Among them, the following is included:

- Mismatching (gap) analysis (GAPS): graphic representation by risk factor of cash flows expressed at market value, allocated at the maturity dates;
- Sensitivity (DV1- Delta Variation): impact on the market value of cash flows, when submitted to an one annual basis point increase in the current interest rates. Applied to risk factors;
- Sensitivity to Several Risk Factors (Greeks): partial derivatives of an option portfolio in relation to the prices of underlying assets, implied volatilities, interest rates and time;
- Stop Loss: maximum loss that a certain portfolio classified in the trading portfolio is authorized to reach.

The consolidated ITAÚ UNIBANCO HOLDING S.A., maintaining its conservative management and portfolio diversification, continued with its policy of operating within low limits in relation to its capital.

In June/2012, Itaú Unibanco recorded a Total Global VaR of R\$ 402 million (R\$ 143 million in March 2012).

II – Credit Risk

Credit risk is the possibility of incurring losses in connection with the breach by the borrower or counterparty of the respective agreed-upon financial obligations, devaluation of loan agreement due to downgrading of the borrower's risk rating, reduction in gains or compensation, advantages given upon renegotiation and recovery costs.

In line with the principles of CMN Resolution No. 3,721 of April 30, 2009, ITAÚ UNIBANCO HOLDING has a structure for and policy on credit risk management, approved by its Board of Directors, applicable to the companies and subsidiaries in Brazil and abroad.

The document that outlines the guidelines set out by this internal policy on credit risk control can be read on the website www.itaunibanco.com.br/ri, in the section Corporate Governance, Rules and Policies, Public Access Report – Credit Risk.

The objective of ITAÚ UNIBANCO HOLDING's credit risk management aims at creating value to stockholders, managing the risk-adjusted return and maintaining the quality of credit portfolio in levels adequate to each market segment in which it operates.

ITAÚ UNIBANCO HOLDING establishes its credit policy based on internal factors, such as the client rating criteria and portfolio development analysis, the registered default levels, the incurred return rates, and the allocated economic capital; and external factors, related to the economic environment in Brazil and abroad, including market share, interest rates, market default indicators, inflation, and consumption increase/decrease. ITAÚ UNIBANCO HOLDING's centralized process for making decisions and establishing a credit policy guarantees the synchrony of credit actions and optimization of business opportunities.

To protect the institution against losses arising from loan operations, ITAÚ UNIBANCO HOLDING considers all aspects that determine the client's credit risk to define the provision level commensurate with the risk incurred in each operation. For each operation, the assessment and rating of the client or economic group, the operation rating, and the possible existence of past-due amounts are taken into account.

ITAÚ UNIBANCO HOLDING recognizes a provision additional to that required by BACEN, aiming at ensuring a provision level compatible with the expected loss model adopted by the institution's credit risk management, based on internal models. This allowance is usually quantified in view of the past performance of loan portfolios, based on exposure, probabilities of default and expected recovery of transactions.

III – Operational Risk

The operational risk is the possibility of incurring losses arising from failure, deficiency or inadequacy of internal processes, personnel and systems, or external events. It includes the legal risk, associated with the inadequacy or deficiency in agreements signed by the institution, as well as sanctions for failing to meet legal provisions and compensation for damages to third parties arising from activities performed by the institution. That definition does not include the strategic risk and reputation risk.

The increasing sophistication of banking business environment and the development of technology make the risk profiles of organizations more complex, clearly outlining this risk class, which management is not a new practice, but now requires a specific structure, different from those traditionally adopted for credit and market risks. Therefore, operational risk management becomes important since it assures the identification, assessment/measurement, response, monitoring and reporting of the exposure to the organization's operational risk.

ITAÚ UNIBANCO HOLDING formulated a policy on operational risk management, approved by its Board of Directors, applicable to the companies and subsidiaries in Brazil and abroad. The policy comprises a set of principles, procedures and tools to enable the company to make permanent adjustments to operational risk management, in view of the nature and complexity of products, services, activities, processes and systems.

The structure formalized in this policy establishes procedures for the identification, assessment, mitigation, monitoring, and communications related to operational risks, as well as the roles and responsibilities of the bodies that participate in this structure. A summarized version of such policy is available on the *website* www.itaú-unibanco.com.br/ri in the section Corporate Governance, Rules and Policies, Public Access Report – Operational Risk.

On April 30, 2008, BACEN published Circular No. 3.383 and Circular Letters Nos. 3,315 and No. 3,316, which establish the criteria for calculation of PRE related to the operational risk (POPR), addressed by Resolution No. 3,490. Therefore, since July 1, 2008, ITAÚ UNIBANCO HOLDING has allocated capital to Operational Risk using the Alternative Standardized Approach.

IV – Liquidity Risk

Liquidity risk is the occurrence of imbalances between tradable assets and falling due liabilities - mismatching between payments and receipts - which may affect the institution's payment capacity, taking into consideration the different currencies and payment terms and their rights and obligations.

Management of liquidity risk seeks to adopt best practices to guarantee liquidity sufficient to support possible outflows in market stress situations, as well as the compatibility between funding, and terms and liquidity of assets.

ITAÚ UNIBANCO HOLDING has a structure dedicated to monitoring, controlling and analyzing liquidity risk, through models of variables projections that affect cash flows and the level of reserves in local and foreign currencies.

Additionally, the institution establishes guidelines and limits whose compliance is periodically analyzed in technical committees and whose purpose is providing safety margin in addition to the minimum projected needs. Liquidity management policies and associated limits are established based on prospective scenarios that are regularly reviewed and on top management definitions.

V - Underwriting Risk

Underwriting risk is the possibility of incurring losses arising from insurance, pension plan and capitalization operations that are contrary to the organization's expectations and that are directly or indirectly associated with the technical and actuarial bases used to calculate premiums, contributions and technical reserves, arising from insurance, pension plan and capitalization operations.

With the purpose of standardizing risk practices and control in the whole group, the risk control area establishes corporate policies approved in different levels of ITAÚ UNIBANCO HOLDING to conduct the institutional guidelines on the topics related to underwriting risks.

To create and amend underwriting risk policies, there is governance that assures the approval of risks inherent in products, processes or business proposals. Decisions are made in different approval levels, in accordance with the risk level, and they may come to specific committees of underwriting risks or Superior Risk Committee of the group, in compliance with the limits of approval levels.

The risk control governance also establishes limits for borderline risks between underwriting and credit in line with Resolution No. 228 of December 6, 2010 of the National Council of Private Insurance (CNSP). An internal policy defines the quality of credit risk of reinsurers and the concentration limits, in compliance with CNSP Resolution No. 168 of December 17, 2007, following the same credit governance of the group.

NOTE 22 – ADDITIONAL INFORMATION

a) **Insurance policy** - ITAÚ UNIBANCO HOLDING and its subsidiaries, despite the low risk exposure due to a physical non-concentration of their assets, have the policy to guarantee their valuables and assets at amounts considered sufficient to cover possible claims.

b) **Foreign currency – the balances in Reais linked to the foreign currency were:**

	06/30/2012	06/30/2011
Permanent foreign investments	17,862,246	21,335,531

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Brazilian Central Bank (BACEN), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Brazilian and International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Itaú Unibanco Holding S.A. and of Itaú Unibanco Holding S.A. and its subsidiaries as at June 30, 2012, and the financial performance and cash flows, as well as the consolidated financial performance and cash flows, for the six-month period then ended, in accordance with accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Brazilian Central Bank (BACEN).

Other matters

Statement of value added

We also have audited the Bank's and the consolidated statements of value added for the six-month period ended June 30, 2012, prepared under management responsibility, the presentation of which is required by the Brazilian corporate legislation for listed companies. These statements were subject to the same audit procedures described above and, in our opinion, are fairly presented, in all material respects, in relation to the financial statements taken as a whole.

SUMMARY OF THE AUDIT COMMITTEE REPORT

According to its Charter (available on website www.itaú-unibanco.com.br/ir), the Committee is responsible for the quality and integrity of the financial statements of the Itaú Unibanco Financial Conglomerate, for the compliance with legal and regulatory requirements, for the activities, independence and quality of the services rendered by the independent and the internal auditors, and for the quality and effectiveness of the internal controls and risk management systems of the Conglomerate. The assessments made by the Committee are based on information received from management, external auditors, internal auditors, those responsible for risk management and internal controls, and on its own analysis based on direct observation.

Management is responsible for preparing the financial statements of Itaú Unibanco Holding S.A. and its subsidiary and affiliated companies and for establishing the necessary procedures to ensure the quality of the processes that generate the information used to prepare the financial statements and the financial reports. Management is also responsible for risk control and monitoring and for the supervision of the corporate activities of internal controls and compliance.

PricewaterhouseCoopers Auditores Independentes is responsible for auditing the financial statements and for ensuring that they fairly represent, in all material aspects, the financial position of the Conglomerate, in conformity with the accounting practices adopted in Brazil arising from the Brazilian corporate law and the requirements of the Conselho Monetário Nacional, Comissão de Valores Mobiliários, Banco Central do Brasil, Conselho Nacional de Seguros Privados, and Superintendência de Seguros Privados, as well as in conformity with the International Financial Reporting Standards (IFRS).

Internal Audit focuses on issues which present the highest risk potential, on the assessment of internal controls and risk management systems, on the evaluation of the quality of processes and on by remote monitoring of risks.

Committee Activities

The Committee met fifteen times in the period from February 2012 to July 2012, a total of 22 days. In addition, in a session on July 23th, the Committee analyzed the financial statements as of June 30, 2012 as well as examined and approved the Audit Committee Report and this Summary on the activities performed in the semester up to that baseline date.

Risk Management and Internal Controls

In 2012, during meetings with Officers responsible for Risk Control and Finance, the Committee examined the aspects related to risk management and control in the Conglomerate, with emphasis on credit, liquidity and market risks. Through meetings with the Officer in charge of the internal control and compliance, the Committee also monitored the implementation and application of the framework for operational risk management.

Based on the information brought to its attention, the Audit Committee considers to be positive the efforts that have been made to ensure the effectiveness of the existing internal controls and risk management systems.

The Committee has also been monitoring the efforts of Itaú Unibanco to converge to Basel II recommendations in relation to the development of the Company's internal risk management models, which should result in better controls in the integrated management of the businesses.

It also considers that the approach that the Organization has adopted to prepare itself for the use of internal models as required by Basel II is firmly established and properly focused.

Compliance with the Legislation, Regulatory Requirements and the Internal Policies and Procedures

The Audit Committee considers that the duties and responsibilities, as well as the procedures for assessing and monitoring legal risks are established and continue to be adopted in accordance with the corporate guidelines. Based on the information brought to its attention from the areas in charge, on the work carried out by the Internal Audit and on the reports prepared by the external auditors, the Audit Committee concludes that no deficiencies were identified in the compliance with the legislation, regulatory requirements and internal policies and procedures that might pose risks to the continuity of the Organization.

External Audit

The Committee has a regular channel of communication with the external auditors to extensively discuss the results of their work and relevant accounting aspects, thus enabling the Committee's members to form a well-based opinion as to the integrity of the financial accounting statements and of the financial reports.

The Committee assesses as fully satisfactory the amount and the quality of the information provided by PricewaterhouseCoopers, which supports its opinion on the integrity of the financial statements. The Committee did not identify situations that could affect the objectivity and independence of the external auditors.

Internal Audit

The Audit Committee approves the annual working plan of the Internal Audit and the revised version of this plan for the second half of the year and, on a quarterly basis, monitors its compliance, making itself aware of work performed that was not planned and providing an opinion on the cancellation of works envisaged in the plan.

The Committee evaluates positively the coverage and quality of the work performed by the internal auditors. The results presented monthly during the Committee's meetings did not bring to its attention the existence of residual risks that could affect the soundness and the continuity of the Organization.

Consolidated Financial Statements

The Committee analyzed the processes for preparing individual and consolidated balance sheets, notes to the financial statements and financial reports published with the consolidated financial statements. It discussed this subject with PricewaterhouseCoopers and with Senior Management of the Conglomerate. An evaluation was also made of the relevant accounting practices used by the Itaú Unibanco Financial Conglomerate in the preparation of its financial statements. The Committee verified that they are in conformity with the generally accepted accounting principles applicable to institutions that have authorization to carry out operations from the Banco Central do Brasil or subject to regulation by the Superintendência de Seguros Privados.

During the semester, the aspects deemed significant for the preparation of the financial statements at December 31, 2011, filed with the Securities and Exchange Commission – SEC, were also analyzed. The Audit Committee states that Management has complied with the procedures established by the U.S. legislation for the financial statements prepared in conformity with the International Financial Reporting Standards.

Recommendations

Regular meetings were held with the Chairman of the Board of Directors and with the Chief Executive Officer of Itaú Unibanco. During those meetings, the Committee had the opportunity to present its opinions and points of view concerning different aspects of its activities.

Conclusion

This Audit Committee, with due consideration to its responsibilities and to the natural limitations due to the scope of its activities, recommends to the Board of Directors the approval of the consolidated financial statements of Itaú Unibanco Holding S.A., for the semester ended on June 30, 2012.
