

2nd quarter 2017 – Earnings Review

Conference Call

Candido Botelho Bracher

President and CEO (Chief Executive Officer)

Caio Ibrahim David

Executive Vice-President, CFO (Chief Financial Officer) and CRO (Chief Risk Officer)

Marcelo Kopel

Investor Relations Officer

The merger between Itaú Chile and CorpBanca was concluded on April, 1st 2016. As from the second quarter of 2016, Itaú CorpBanca, the company resulting from this merger, was consolidated in our financial statements, as we are the controlling shareholder of the new bank.

In order to allow comparison with previous periods, we are presenting historical pro forma data, that is, the combined result of Itaú Unibanco and CorpBanca for the periods previous to the second quarter of 2016, in the Management Discussion & Analysis report and in this presentation.

The pro forma statements above mentioned were prepared considering all lines of the income statement, including 100% of Itaú CorpBanca's result. The result related to the minority shareholders is shown in the "minority interests in subsidiaries" line, for both CorpBanca and Itaú Chile.

As the data was prepared to demonstrate, on a retroactively basis, the effect of a transaction occurred in a subsequent date, there are limits inherent to pro forma information. The data was provided for illustration purposes only and should not be taken as a demonstration of the result that would have been achieved if the merger had occurred on a previous date, nor do they indicate any future result of the combined company.

Seeking excellence and value creation for all our stakeholders, we perceive as **our main challenges:**

Focus on Clients

We must **further increase the focus on clients**, aligned with international best practices not limited to the financial sector, **developing products and a “service culture” always focused on client satisfaction** throughout all the activities of the bank.

Risk Management

We must commit ourselves to **fully comply with the Risk Appetite guidelines** of the Board of Directors. Managing risks is the essence of our activity and a responsibility of all employees.

Digital Transformation

Speeding up our digital transformation process, continuously **increasing the productivity of our IT area** and **spreading out a digital mindset** throughout the bank is essential to maximize efficiency and to improve user experience and client’s satisfaction.

Internationalization

Moving forward in the internationalization process does not necessarily mean to take activities to new countries, but rather to reach, in the countries we are present in, **the same management quality and results we have in Brazil.**

People Management

We must **continuously improve the existing models** so that we **distinguish ourselves in people management**, with processes being increasingly perceived as fair and meritorious.

Profitability

Keeping up the profitability level is what allows us to “dream great dreams” and should be the **result of our efforts** to exceed in all aspects of banking activity, always focused on value creation.

Highlights

Individuals and Companies Account Holders

Recent Developments 2017

App Light

- + 400k clients; most downloaded Google Play app in May 2017
- Light (~5MB), low data consumption
- Intuitive and easy browsing
- No password needed when making inquiries

New Internet Banking SMEs and Itaúcard

- New browsing experience – 80% of direct account management on the homepage
- Modernized technology platform

Mobile app evolution Itaú and Itaú Empresas

- New design and simplified navigation – modern and focused on clients' needs
- Extended platform of products and services
- Text or voice search engine
- Itaú App elected the best app by Folha (May 2017) and the "must have" app at App Store (May 17)

Online Account Opening

- + 140k accounts opened via mobile since this app was launched

Employees

Branches and Client Service Branches

Core Capital Ratio (Common Equity Tier I)

Changes in the Core Capital Ratio

Full application of Basel III rules | June 30, 2017

¹ Includes deductions of Goodwill, Intangible Assets (generated before and after October 2013), Tax Credits from Temporary Differences and Tax Loss Carryforwards, Pension Fund Assets, Equity Investments in Financial Institutions, Insurance and similar companies. ² Includes the increase of the multiplier of the amounts of market risk, operational risk and certain credit risk accounts. This multiplier, which is at 10.8 nowadays, will be 12.5 in 2019. ³ The consolidation of Citibank considers the retail business (for individuals) in Brazil. Estimated impacts based on preliminary information and pending regulatory approvals. ⁴ If we considered the anticipated effect of payout above mandatory minimum (recorded in Revenue Reserves in Stockholders' Equity) related to net income for the first half of 2017, CET I with fully loaded Basel III rules (before the use of tax credits) would be 13.2%. ⁵ Does not consider any reversal of complementary allowance for loan losses.

We kept unchanged the ranges of our 2017 forecast.

- As of 2Q17, Discounts Granted started to be disclosed in Cost of Credit, composed of Result from Loan Losses, Impairment and Discounts Granted. Therefore, we present this new version of our forecast considering the effects of the reclassification of Discounts Granted from Financial Margin with Clients to Cost of Credit.
